Resources in Education ,1998 **Tracing the Life Cycle of Ideas in the Humanities and Social Sciences** Arjuna Tuzzi, 2018-10-30

This book demonstrates how quantitative methods for text analysis can successfully combine with qualitative methods in the study of different disciplines of the Humanities and Social Sciences HSS The book focuses on learning about the evolution of ideas of HSS disciplines through a distant reading of the contents conveyed by scientific literature in order to retrieve the most relevant topics being debated over time Quantitative methods statistical techniques and software packages are used to identify and study the main subject matters of a discipline from raw textual data both in the past and today The book also deals with the concept of quality of life of words and aims to foster a discussion about the life cycle of scientific ideas Textual data retrieved from large corpora pose interesting challenges for any data analysis method and today represent a growing area of research in many fields New problems emerge from the growing availability of large databases and new methods are

needed to retrieve significant information from those large information sources This book can be used to explain how quantitative methods can be part of the research instrumentation and the toolbox of scholars of Humanities and Social Sciences The book contains numerous examples and a description of the main methods in use with references to literature and available software Most of the chapters of the book have been written in a non technical language for HSS researchers without mathematical computer or statistical backgrounds Reader's Guide to the Social Sciences Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Sociology and Post-Socialist Transformations in Eastern Europe** Borut Rončević,Tamara Besednjak Valič,2024-11-28 The volume offers a unique and comprehensive reflection on the role of sociology and sociologists in the transformation of post socialist Eastern European societies It provides detailed insight on the status of sociology in Eastern Europe its institutional development specifics of national sociological traditions the controversial and ambiguous relationship with the political system and importantly state of the art knowledge about the role of sociology as a discipline and sociologists as academics educators public intellectuals experts politicians or civil society activists in three decades of transformation The volume follows a cultural political economy approach and provides a series of national case studies that analyse the role of sociology in re imagining Eastern European societies This topical volume is of interest to a wide interdisciplinary readership in the social sciences especially students and researchers working on Eastern Europe and on post socialist societies
