A Working Life For People With Severe Mental Illness:

A Working Life for People with Severe Mental Illness Deborah R. Becker, Robert E. Drake, 2003-06-12 Supported employment is a conceptual approach to vocational rehabilitation designed for people with developmental disabilities The Individual Placement and Support IPS method described within utilizes the concept but modifies it for the severely mentally ill

A ^A Working Life for People with Severe Mental Illness Deborah R. Becker, Robert E. Drake, 2003-06-12 Traditional approaches to vocational rehabilitation such as skills training classes job clubs and sheltered employment have not been successful in helping people with severe mental illness gain competitive employment Supported employment in which clients are placed in jobs and then trained by on site coaches is a radically new conceptual approach to vocational rehabilitation designed for people with developmental disabilities The Individual Placement and Support IPS method utilizes the supported employment concept but modifies it for use with the severely mentally ill It is the only approach that has a strong empirical research base rates of competitive employment are 40% or more in IPS programs compared to 15% in traditional mental health programs The third volume in the Innovations in Practice and Service Delivery with Vulnerable Populations series this will be extremely useful to students in psychiatric rehabilitation programs and social work classes dealing with the severely mentally ill as well as to practitioners in the field Schizophrenia Bulletin ,2005

[Handbook of Career Development](#) Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career

development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling
