

The illustration depicts two House Finches perched on a light brown, textured branch. The bird in the upper left is shown in profile, facing left, with its head slightly turned. It has a prominent reddish-brown crest, a black throat patch, and a black collar around its neck. Its body is a warm, light brown color. The bird in the lower right is also in profile, facing right, with its head turned slightly towards the viewer. It has similar plumage to the first bird, including a reddish-brown crest and a black throat patch. Both birds have wings with grey and black feathers, and a yellowish-buff tail. Several clusters of small, bright red berries are attached to thin, light brown branches, some of which are near the birds. The background is a plain, light cream color.
