Kramer,2012-12-06 In the past decade the field of trenchless technology has expanded rapidly in products equipment and
utilization This expansion would not have occurred without a strong increase in economic incentives to the user Because the
operating environment has changed trenchless technology is often the preferred alternative to traditional methods of digging
holes and installing conduits The infrastructure in which we live has become more congested and has to be shared by several
users In addition the cost of restoring a road or landscaped area after construction may be higher than the cost of installing
the conduit These factors add to the need for trenchless technology the ability to dig holes without disturbing the surface In
some ways trenchless technology is a futuristic concept Ruth Krauss in a children s book of definitions wrote A Hole Is to Dig
