Translator Positioning in Characterisation Minru Zhao, 2023-04-28 Applying Systemic Functional Linguistics SFL to Descriptive Translation Studies DTS to three translations of a classic Chinese text Zhao proposes a new model for linking translator positioning with translational norms in the target culture Zhao combines the Appraisal model from SFL with a characterisation model to describe the role of translator positioning in character construction Looking at three different translations of the classic Chinese novel *Luotuo Xiangzi* she uses corpus tools to compare the opening and ending chapters of each translation identifying textual patterns of translator positioning She then analyses and compares the cover designs of the translated novels and reconstructs the translational norms governing the translator's positioning in characterisation In doing so she contributes to DTS by developing a systematic and consistent framework to analyse verbal and visual elements in translated novels Her multimodal analysis also provides insights into the broader patterns of translated language An insightful read for scholars interested in both theoretical and empirical approaches to translation studies

Asian Children's Literature and Film in a

Global Age Bernard Wilson, Sharmani Patricia Gabriel, 2020-03-06 This volume provides a key analysis of Asian children's literature and film and creates a dialogue between East and West and between the cultures from which they emerge within the complex symbiosis of their local national and transnational frameworks In terms of location and content the book embraces a broad scope including contributions related to the Asian American diaspora China India Indonesia Iran Japan Malaysia the Philippines South Korea Sri Lanka and Taiwan Individually and collectively these essays broach crucial questions What elements of Asian literature and film make them distinctive both within their own specific culture and within the broader Asian area What aspects link them to these genres in other parts of the world How have they represented and shaped the societies and cultures they inhabit What moral codes do they address underpin or contest The volume provides further voice to the increasingly diverse and fascinating output of the region and emphasises the importance of Asian art forms as depictions of specific cultures but also of their connection to broader themes in children's texts and scholarship within this field

Victims, Perpetrators and Professionals Tingting Hu, 2021-06-07 This book examines the representation of women in relation to violence in Chinese crime films made on the mainland and in Hong Kong and Taiwan It introduces a new trajectory in the investigation of the cinematic representation of female figures in relation to gender issues by interweaving Western feminist and postfeminist critiques with traditional Chinese sociocultural discourse An in depth narrative identifies three major representations of women the female victim the female perpetrator of violence and the female professional Salience to contemporary society shows up in many ways passive and active all of which reinforce a sense of male dominance and patriarchal power Analysis bridges the gap in the field of female representation in Chinese culture Chinese film studies by systematically examining Chinese crime films as a genre in its own right The depiction of female victimisation at the hands of men in the selected crime films consolidates the notion of women's vulnerability and inferiority as perceived in Chinese gender discourse On the other hand the representation of active female perpetrators of violence and as professional working women presents what may be seen as a postfeminist masquerade a cultural strategy that shows an ostensible impression of female empowerment albeit that it reinforces traditional gender hierarchies in the Chinese gender context While graphic female victimisation is commonly presented female perpetrators of violence and females in professional roles in crime films are shown to remain under the control of male authority leading to the conclusion that Chinese crime films are produced in a context of heavy patriarchal power and misogyny
