

CHAPTER 1

INTRODUCING GOVERNMENT IN AMERICA

CHAPTER OUTLINE

- I. Introduction: Politics and Government Matter (pp. 3–8)
 - A. Many Americans are apathetic about politics and government.
 - B. Political knowledge fosters civic virtues, educates citizens on policy, and promotes participation.
 - C. Voter turnout among the youth is lower than any other group.
- II. Government (pp. 8–9)
 - A. The institutions that make authoritative decisions for any given society are collectively known as **government**.
 - B. Two fundamental questions about governing serve as themes of this book.
 - 1. How should we govern?
 - 2. What should government do?
 - C. All national governments have certain functions in common:
 - 1. Governments maintain national defense.
 - 2. Governments provide public services called **public goods**.
 - 3. Governments preserve order.
 - 4. Governments socialize the young.
 - 5. Governments collect taxes.
- III. Politics (pp. 9–10)
 - A. **Politics** determines whom we select as our governmental leaders and what policies they pursue.
 - B. The ways in which people get involved in politics make up their **political participation**.
 - C. **Single-issue groups** are so concerned with one issue that their members will cast their votes on the basis of that issue only.
- IV. The Policymaking System (pp. 10–13)
 - A. People Shape Policy
 - 1. The **policymaking system** is the process by which policy comes into being and evolves over time. (See Figure 1.4)
 - 2. Political parties, elections, interest groups, and the media are key **linkage institutions** that transmit the preferences of Americans to the policymakers in government.
 - 3. The **policy agenda** consists of the issues that attract the serious attention of public officials and other people actively involved in politics at a given time.
 - 4. A **political issue** arises when people disagree about a problem or about a public policy choice made to fix a problem.

Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary

practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police Study Guide for Problems in American History Lena A.
