large powerfully illustrated interdisciplinary natural sciences volume the first of its kind to examine the critically important nature of ecological paradox through an abundance of lenses the biological sciences taxonomy archaeology geopolitical history comparative ethics literature philosophy the history of science human geography population ecology epistemology anthropology demographics and futurism The ecological paradox suggests that the human biological and from an insular perspective successful struggle to exist has come at the price of isolating *H sapiens* from life sustaining ecosystem services and far too much of the biodiversity with which we find ourselves at crisis level odds It is a paradox dating back thousands of

years implicating millennia of human machinations that have been utterly ruinous to biological baselines Those metrics are examined from numerous multidisciplinary approaches in this thoroughly original work which aids readers particularly natural history students who aspire to grasp the far reaching dimensions of the Anthropocene as it affects every facet of human experience past present and future and the rest of planetary sentience With a Preface by Dr Gerald Wayne Clough former Secretary of the Smithsonian Institution and President Emeritus of the Georgia Institute of Technology Foreword by Robert Gillespie President of the non profit Population Communication *The Rose in Fashion* Amy de la Haye,2020-09-04 Examples from jewelry millinery handbags perfume couture and everyday dress show how the rose both beautiful and symbolic has inspired fashion over hundreds of years *Cumulated Index Medicus* ,1996 Shape-Shifting Capital George González,2015-05-20 Shape Shifting Capital Spiritual Management Critical Theory and the Ethnographic Project is positioned at the intersection of anthropology critical theory and philosophy of religion First Gonz lez explores the phenomena of workplace spirituality in a language that is accessible to a general readership Taking contemporary trends in organizational management as a case study he argues by way of a detailed ethnographic study of practitioners of workplace spirituality that the conceptual and institutional boundaries between religion science and capitalism are being redrawn by theologized management appropriations of tropes borrowed from creativity theory and quantum mechanics Second Gonz lez makes a case for a critical anthropology of religion that combines existential concerns for biography and intentionality with poststructuralist concerns for power arguing that the ways in which the personalization of metaphor bridges personal and social histories also helps bring about broader epistemic shifts in society Finally in a postsecular age in which capitalism itself is explicitly and confidently spiritual Gonz lez suggests that it is imperative to reorient our critical energies towards a present day evaluation of postmodern capitalism s boundary blurring Gonz lez further argues that the kind of existential deconstruction performed by what he calls existential archeology can serve the needs of any social criticism of neoliberal religion and corporate spirituality **Federal Register** ,2013-12 **Global Rentier Capitalism** Balihar Sanghera,2024-09-16 Recent work on rent and rentierism has offered a distinctive and fresh approach to understanding and explaining contemporary capitalism Drawing on political economy economics geography and sociology this research has brought together distinct theoretical traditions in original and fertile ways to reshape the study of issues related to class political economic change and environmental challenges This book critically engages with these theoretical resources to analyse and evaluate economies in the Global North and South It offers historical theoretical and empirical accounts of rentierism making important cross disciplinary and global connections Its four parts address global rentier capitalism under the headings of historical lessons theoretical developments and empirical studies of rentierism in the Global North and South It will be the first book of its kind to offer a global account of rentier capitalism It will be of immense interest to readers in economics political economy sociology geography and development studies **Toxic Sexual Politics** Melina

Packer, 2025-01-28 A bold exposé of how the very foundation of toxicology has been contaminated by sexist and racist ideologies. The first critical understanding of the field of toxicology from a feminist and antiracist perspective, *Toxic Sexual Politics* asserts that the science of toxicants must be held accountable for the uneven distribution of toxic pollution along racial and sexual lines. Drawing upon in-depth interviews and extensive ethnographic and archival research, including participant observations in toxicology classrooms, conferences, and laboratories, Melina Packer urges environmental health advocates to place toxicant science within its masculinist, militarist, and eugenicist history. *Toxic Sexual Politics* shows how the founding fathers of U.S. toxicology were ideologically aligned with the chemical industry, inventing a science that could make chemicals safe as opposed to one that could adequately protect planetary health from toxicants' hazards. While many toxicologists today are critical of the chemical industry, they continue to rely on the highly limited tools of toxicology as accurate measures of toxicity, as do government regulators, the courts, and environmental advocates. Unlike most critiques of the chemical industry and narratives of environmental health movements, *Toxic Sexual Politics* refuses to take the science at face value. By focusing on the sexist, racist, and ableist biases reinforced by toxicology, Packer powerfully argues that this scientific discipline reproduces the very same white supremacist and heterosexist logics that generated environmental injustices in the first place. The field of toxicology can explicitly confront chemical corporate power by building from queer, feminist, anti-ableist, and antiracist movements for environmental and reproductive justice.

College Made Whole Chris W. Gallagher, 2019-09-24 How can universities shape creative, adaptive, integrated learners ready to confront the world? This book's clear-eyed optimism is a challenge to everyone in higher education. American higher education is being torn apart. Institutions, curricula, courses, and faculty roles are being unbundled, broken into constituent parts in the name of efficiency and cost savings. As a result, the college learning experience is fragmented and incoherent, leaving graduates less and less equipped to confront the dire social problems that cause those divisions in the first place. In *College Made Whole*, Chris W. Gallagher lays bare the dangers of the disintegration of the college experience and shows how we can put higher education back together again. The successful colleges and universities of the future, Gallagher argues, will be integrated coherently and cohesively designed to help students achieve a lifelong learning experience that is more than the sum of its parts. Pushing back against pernicious dichotomies that frame much discussion of U.S. higher education, Gallagher critiques many of the hottest educational trends, including the overhyping of technological solutions, rampant adjunctification, the promotion of nondegree credentials as a suitable replacement for college degrees, and the increasingly narrow focus on the vocational aims of a college education. Investigating the purposes of higher education historically and today, he suggests audacious proposals to enhance learning, including reorganizing institutions, reordering institutional priorities, redesigning curricula and courses, and rethinking edtech and learning technologies. Lucidly written and packed with practical recommendations and real student stories, *College Made Whole* will challenge higher education professionals and policy makers as well as anyone

with a stake in the future of US higher education which is to say all of us who inhabit this fragile planet Deter, Detain, Dehumanise Rachel Sharples, Linda Briskman, 2024-06-19 Taken together this body of work examines how Australia has politicised the right to seek asylum to the detriment of asylum seekers and refugees as well as Australian citizens and tentatively offers hope on how we might seek to normalise legitimise and re humanise the processes
