Comparison with Pakistan and China Log and Antilog Table      **The Great Class War 1914-1918** Jacques R.  
Pauwels,2016-04-06 Historian Jacques Pauwels applies a critical revisionist lens to the First World War offering readers a  
fresh interpretation that challenges mainstream thinking As Pauwels sees it war offered benefits to everyone across class and  
national borders For European statesmen a large scale war could give their countries new colonial territories important to  
growing capitalist economies For the wealthy and ruling classes war served as an antidote to social revolution encouraging  
workers to exchange socialism s focus on international solidarity for nationalism s intense militarism And for the working  
classes themselves war provided an outlet for years of systemic militarization quite simply they were hardwired to pick up  
arms and to do so eagerly To Pauwels the assassination of Archduke Franz Ferdinand in June 1914 traditionally upheld by

historians as the spark that lit the powder keg was not a sufficient cause for war but rather a pretext seized upon by European powers to unleash the kind of war they had desired But what Europe s elite did not expect or predict was some of the war s outcomes social revolution and Communist Party rule in Russia plus a wave of political and social democratic reforms in Western Europe that would have far reaching consequences Reflecting his broad research in the voluminous recent literature about the First World War by historians in the leading countries involved in the conflict Jacques Pauwels has produced an account that challenges readers to rethink their understanding of this key event of twentieth century world history

*Understanding Economic Inequality* Todd A. Knoop,2020-01-31 In *Understanding Economic Inequality* the author brings an economist s perspective informed by new groundbreaking research on inequality from philosophy sociology psychology and political science and presents it in a form that it is accessible to those who want to understand our world our society our politics our paychecks and our neighbors paychecks better

Disposable Americans Paul Buchheit,2017-03-31 Inequality has dramatically increased in America with few solutions on the horizon Serious social inequalities persist For example the 14 richest Americans earned enough money from their investments in 2015 to hire two million preschool teachers while the USA ranks low among developed countries in preschool enrollment Following the Great Recession the richest one percent took 116 percent of the new income gains a statistic caused by so many middle class Americans moving backward many losing investments in property and experiencing interruptions in work Author Paul Buchheit looks hopefully to solutions in a book that vividly portrays the rapidly changing inequality of American society More Americans have become disposable as middle class jobs have disappeared at an alarming rate Buchheit presents innovative proposals that could quickly begin to reverse these trends including a guaranteed basic income drawn from new revenues such as a Financial Speculation Tax and a Carbon Tax Discussing the challenges and obstacles to such measures he finds optimism in past successes in American history Ideal for classroom assignment the book uniquely pairs historical events with current real life struggles faced by citizens pointing to measures that can improve personal and social well being and trust in government

**Recoded City** Thomas Ermacora,Lucy Bullivant,2016-07-01 Recoded City examines alternative urban design planning and architecture for the other 90% namely the practice of participatory placemaking a burgeoning practice that co author Thomas Ermacora terms recoding In combining bottom up and top down means of regenerating and rebalancing neighbourhoods affected by declining welfare or struck by disaster this growing movement brings greater resilience Recoded City sheds light on a new epoch in the relationship between cities and civil society by presenting an emerging range of collaborative solutions and distributed governance models The authors draw

on their own fresh research of global pioneers forging localist design strategies public realm interventions and new stakeholder dynamics As the world becomes increasingly digital and virtual a myriad of online tools and technological options is becoming available These give unprecedented co creation opportunities to communities and professionals alike yielding the benefits of a more open DIY society Because of its close engagement with people place and local identity the field of participatory placemaking has huge untapped potential Responding to the challenges of the Anthropocene era Recoded City is for decision makers developers and practitioners working globally to make better and more liveable cities **From the Local to the Global** Gerard McCann, Stephen McCloskey, 2015-05-20 The international development sector has found itself confronting new challenges to poverty eradication and the promotion of human rights Climate change has loomed large as a crisis for development practitioners and environmentalists affecting the most vulnerable in the Global South The ongoing financial crisis has created recurrent recessions in the global North while causing budget lines to be reduced for development aid This textbook highlights the extent to which the local and global are interconnected in today's globalised economy It questions the legitimacy of the neoliberal model of development which propelled us into the crisis Including chapters on Latin America China and sub Saharan Africa and topics such as debt injustice gender and migration this completely revised third edition takes stock of the international development environment as it embarks on new policy frameworks to confront new challenges **President Trump, Inc.** T. J. Coles, 2017-06-19 An important book that deserves to reach a wide audience Noam Chomsky With Trump in the White House big business has direct power in government Trump has stacked his cabinet with former employees of investment banks big oil and international corporations Now that big business has its representatives in the cabinet it no longer needs to indulge in expensive lobbying Under Trump corporations control US policy How and why did this happen and what does it mean for the bulk of the population T J Coles presents the background to Trump's rise tracing the history of economic neoliberalism He shows what a liberal economy means in practice privatization of public resources cutting red tape for corporations and internationalizing volatile money markets For ordinary working people neoliberalism translates to ongoing falls in living standards fewer protections for workers spiralling housing costs and social cutbacks As a consequence many voters are turning their backs on mainstream politics with some supporting far right populist parties including the Trump faction of the Republican Party and UKIP in Britain despite the fact that these parties support the very policies that make ordinary people poorer President Trump Inc exposes the Trump hoax Trump sold himself as a maverick but in reality big business has been lobbying Congress for years to do what he campaigned for tearing up the international TPP trade agreement keeping out low skilled immigrants whilst fast tracking specific foreign workers and helping repatriate corporations to the US Trump's apparently personal agenda to Make America Great Again is actually big business's wish list Coles concludes on a positive note offering tangible hope Real change he notes doesn't come from the top down Millions of people all over the world are working at the local level to win power

back from centralized elites for their communities The first step in this process of true democratization is to understand what is really happening and Coles essential analysis provides a clear picture of the present reality      **Socio-Economic**

**Segregation in European Capital Cities** Tiit Tammaru,Szymon Marcińczak,Maarten van Ham,Sako Musterd,2015-07-24 Growing inequalities in Europe are a major challenge threatening the sustainability of urban communities and the competitiveness of European cities While the levels of socio economic segregation in European cities are still modest compared to some parts of the world the poor are increasingly concentrating spatially within capital cities across Europe An overlooked area of research this book offers a systematic and representative account of the spatial dimension of rising inequalities in Europe This book provides rigorous comparative evidence on socio economic segregation from 13 European cities Cities include Amsterdam Athens Budapest London Milan Madrid Oslo Prague Riga Stockholm Tallinn Vienna and Vilnius Comparing 2001 and 2011 this multi factor approach links segregation to four underlying universal structural factors social inequalities global city status welfare regimes and housing systems Hypothetical segregation levels derived from those factors are compared to actual segregation levels in all cities Each chapter provides an in depth and context sensitive discussion of the unique features shaping inequalities and segregation in the case study cities The main conclusion of the book is that the spatial gap between the poor and the rich is widening in capital cities across Europe which threatens to harm the social stability of European cities This book will be a key reference on increasing segregation and will provide valuable insights to students researchers and policy makers who are interested in the spatial dimension of social inequality in European cities Chapters 1 and 15 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3 0 license      **The**
