Kerala: the Development Experience Govinda Parayil, 2000-08-12 At a time when disillusion with neo liberal development nostrums is mounting alternative models of development are being revisited Kerala s 30 million people may not have experienced rapid growth in GDP per capita but they have for the past several decades achieved a remarkable social record in terms of adult literacy infant mortality life expectancy stabilising population growth and narrowing gender and spatial gaps What are the implications of the disjuncture between human development and economic growth What are the political social and cultural factors responsible for Kerala s success Does its human development record necessarily relate to sustainability in environmental terms How inclusive has the Kerala model been particularly for the fishing community and other socially marginalised groups Can the new people s campaign for decentralised development from below make Kerala s development experience more enduring What realistic view can be taken of its replicability elsewhere in India or further afield in the South These are among the most important questions explored in this timely reassessment **The Madras University Calendar** University of Madras, 1879 Thottuva Tales of an Ox, an Elephant and a River Johny

Chengalan,2021-12-13 Buffaloes and oxen normally do not lock horns What would be the outcome if they do The contest would be a short lived affair resulting in the victory of the stronger buffalo This popular notion is challenged by a feeble male calf on the verge of death Under the loving care of a cattle loving household the calf grows into a beautiful and strong ox He takes on several hitherto unbeaten heroes to become the undisputed champion among the oxen of the locality He then dares to challenge the supremacy of a buffalo Will the ox emerge victorious in this contest Ayyappankutty a tame elephant gone berserk becomes a threat to life and property in the hamlet of Thottuva He wreaks havoc on the south bank of the river Periyar in Kerala for nearly a week The Travancore Maharaja deposes his sharp shooting police officer to account for the menacing beast A diminutive mahout has a different plan Both converge in Thottuva on the same day Will Ayyappankutty fall to the bullets of Veeran Mudaliar Will the courageous mahout bring him into submission and save his life River Periyar's magnificent sandbank in Thottuva is ravaged by the sand mining unions with the government agencies remaining mute spectators Rivalry among the unions affects normal life While the riverbed sinks by several metres due to both lawful and unlawful sand mining the vice of liquor addiction overpowers several young men disrupting their family life The protagonist Jivan a silent and innocent teetotaler gradually takes to drinking with very dangerous consequences

Million Cities of India R.P. Misra,2019-01-01 The first edition of Million Cities of India was published in 1978 It was based on 1971 Census returns At that time there were only 9 Million Cities Calcutta Bombay Delhi Madras Hyderabad Ahmadabad Bangalore Kanpur and Poona The second edition of the book was published in two volumes in 1998 using 1991 Census data By that time the number of cities with a million or more population had increased to 23 By 2001 it went up to 35 and by 2011 to 53 and is likely to go up to 70 by 2021 The first edition of the book was published by Prasanga University of Mysore in 1978 Prof R P Misra the editor of the book at that time was the Director of Institute of Development Studies University of Mysore Mysuru Karnataka And the second edition of the book was published in 1998 in two volumes by Sustainable Development Foundation New Delhi This is the third edition of the book and is based on 2011 Census returns It covers 53 Million Cities as reported by Census of India and 8 de facto Million Cities which formed Urban Agglomerations UAs UA was an extended city comprising the built up area around a major city provided that the extended areas were located within the same state For example Noida Greater Noida Ghaziabad Gurugram and Faridabad are functionally parts of Delhi but they are outside the Union Territory of Delhi and hence not included in Delhi UA If they are considered as part of Delhi UA the 2011 population of Delhi would go up to 21.7 million Thus the population of all the cities of Kerala got inflated and they cannot be compared with other cities of the country in this respect

The Villagers' Calendar Madras (Presidency) Department of Agriculture,1922 **Culture and the Changing Environment** Michael J. Casimir,2009 Today human ecology has split into many different sub disciplines such as historical ecology political ecology or the New Ecological Anthropology The latter in particular has criticised the predominance of the Western view on different ecosystems arguing that culture specific world views and human environment interactions have been largely neglected However these different perspectives only tackle specific facets of a local and global hyper complex reality In bringing together a variety of views and theoretical approaches these especially commissioned essays prove that an interdisciplinary collaboration and understanding of the extreme complexity of the human environment interface is possible
