land and agrarian reform are now well entrenched in post apartheid South Africa But what this reform actually means for
everyday life is not clearly understood nor the way it will impact on the political economy In the Shadow of Policy explores
the interface between the policy of land and agrarian reform and its implementation and between the decisions of policy
experts and actual livelihood experiences in the fields and homesteads of land reform projects Starting with an overview of
the socio historical context in which land and agrarian reform policy has evolved in South Africa the volume presents
empirical case studies of land reform projects in the Northern Western and Eastern Cape provinces These draw on multiple
voices from various sectors and provide a rich source of material and critical reflections to inform future policy and research
agendas In the Shadow of Policy will be a key reference tool for those working in the area of development studies and land
policy and for civil society groups and NGOs involved in land restitution The Sale Catalogues of British Government
