Accounting for the Public Interest Steven Mintz, 2013-10-04 This volume explores the opportunities and challenges facing the accounting profession in an increasingly globalized business and financial reporting environment. It looks back at past experiences of the profession in attempting to meet its public interest obligation. It examines the role and responsibilities of accounting to society including regulatory requirements, increased emphasis on corporate social responsibility, accounting fraud and whistle blowing implications, internationalization of public interest obligations and providing the education needed to be successful. The book incorporates an ethical dimension in making these assessments. Its focus is a conceptual/theoretical one drawing on classical philosophy, the sociology of professions, economic theory and the public interest dimension of accountants as professionals. The authors of papers are long-time contributors to the annual symposium on Research in Accounting Ethics sponsored by the Public Interest Section of the AAA. *Image and Video Technology* Reinhard

Klette, Mariano Rivera, Shin'ichi Satoh, 2014-01-31 This book constitutes the thoroughly refereed post-conference proceedings of the 6th Pacific Rim Symposium on Image and Video Technology PSIVT 2013 held in Guanajuato, Mexico, in October-November 2013. The total of 43 revised papers was carefully reviewed and selected from 90 submissions. The papers are organized in topical sections on image/video processing and analysis, image/video retrieval and scene understanding, applications of image and video technology, biomedical image processing and analysis, biometrics and image forensics, computational photography and arts, computer and robot vision, pattern recognition and video surveillance. **Demographic**

Methods Across the Tree of Life Roberto Salguero-Gómez, Marlène Gamelon, 2021 This novel book provides the reader with the fundamentals of data collection, model construction, analyses and interpretation across a wide repertoire of demographic techniques and protocols, clearly guided throughout with fully reproducible R scripts. *South Africa Yearbook*, 2009 Feeling White Cheryl E. Matias, 2016-03-22 Discussing race and racism often conjures up emotions of guilt, shame, anger, defensiveness, denial, sadness, dissonance and discomfort. Instead of suppressing those feelings, coined emotionalities of whiteness, they are nonetheless important to identify, understand and deconstruct if one ever hopes to fully commit to racial equity. *Feeling White: Whiteness, Emotionality and Education* delves deeper into these white emotionalities and other latent ones by providing theoretical and psychoanalytic analyses to determine where these emotions stem from, how they operate and how they perpetuate racial inequities in education and society. The author beautifully weaves in creative writing with theoretical work to artistically illustrate how these emotions operate while also engaging the reader in an emotional experience in and of itself, claiming one must feel to understand. This book does not rehash former race concepts; rather, it applies them in novel ways that get at the heart of humanity, thus revealing how feeling white ultimately impacts race relations. Without a proper investigation on these underlying emotions that can both stifle or enhance one's commitment to racial justice in education and society, the field of education denies itself a proper emotional preparation so needed to engage

in prolonged educative projects of racial and social justice By digging deep to what impacts humanity most our hearts this book dares to expose one s daily experiences with race thus individually challenging us all to self investigate our own racialized emotionalities Drawing on her deep wisdom about how race works Cheryl Matias directly interrogates the emotional arsenal White people use as shields from the pain of confronting racism peeling back its layers to unearth a core of love that can open us up In *Feeling White Whiteness Emotionality and Education* Matias deftly names and deconstructs distancing emotions prodding us to stay in the conversation in order to become teachers who can reach children marginalized by racism Christine Sleeter Ph D Professor Emeritus California State University Monterey Bay In *Feeling White* Cheryl E Matias blends astute observations analyses and insights about the emotions embedded in white identity and their impact on the racialized politics of affect in teacher education Drawing deftly on her own classroom experiences as well as her mastery of the methodologies and theories of critical whiteness studies Matias challenges us to develop what Dr King called the strength to love by confronting and conquering the affective structures that promote white innocence and preclude white accountability George Lipsitz Ph D Professor University of California Santa Barbara and author of *The Possessive Investment in Whiteness* Cheryl E Matias Ph D is an assistant professor in the School of Education and Human Development at the University of Colorado Denver She is a motherscholar of three children including boy girl twins
