Urban Public Transport Systems Innovation in the Fourth Industrial Revolution Era Trynos Gumbo,Thembani Moyo,Bongumusa Ndwandwe,Brightnes Risimati,Siphiwe Given Mbatha,2022-04-02 This book explores the physical and electronic integration of innovative urban public transport systems in seven metropolitan cities in South Africa and Zimbabwe in the era of the Fourth Industrial Revolution Industry 4.0 The book also highlights how collaborative engagement can improve new transport projects in cities of the Global South It demonstrates how integration concerns remain in transport infrastructure projects in cities of the developing countries Consequently in order to strengthen the emerging and promising economies of these cities there is a need for efficient integrated reliable and affordable public transport systems The book explains that plans to deliver innovative transport systems in the Global South need to be well coordinated and managed to yield physically and electronically integrated systems *A Burdensome Experiment* Christien Philmarc Tompkins,2024-10-22 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more In the aftermath of Hurricane Katrina the New Orleans public school board fired nearly 7 500 teachers and employees In the decade that followed the city created the first urban public school system in the United States to be entirely contracted out to private management Veteran educators collectively referred to as the backbone of the city's Black middle class were replaced by younger less experienced white teachers who lacked historical ties to the city In *A Burdensome Experiment* Christien Philmarc Tompkins argues that the privatization of New Orleans schools has made educators into a new kind of racialized worker As school districts across the nation backslide on school integration Tompkins asks who exactly deserves to teach our children The struggle over this question exposes the inherent antiblackness of charter school systems and the unequal burdens of school choice **Procurement and Politics** Andrea Migone,Alexander Howlett,Michael Howlett,2023-06-21 This open access book compares the experiences of large

scale military procurement in Canada and Australia Focusing on the recent frigate and jet fighter programmes it demonstrates how delays suffered in delivering weapons systems and platforms in these countries have been caused by misalignments between the strategic requirements set out by the armed forces and government defence policies By bringing the insights of public management and administration to those of defence studies the book presents policy options that will help improve the nature of future large project military procurement It will appeal to scholars and students of public administration public management and defence studies as well as practitioners and policymakers

The Algebra of Warfare-Welfare Irfan Ahmad, Pralay Kanungo, 2018-12-24 Electoral democracy combines the ideas and practices of warfare and welfare where both work in tandem as near synonyms India's robust electoral democracy exemplifies this combination in diverse forms Critically analysing the 2014 Parliamentary elections beyond the seduction of immediacy and bare cold statistics this book puts human subjectivity at the centre of election studies and through an anthropological sociological approach makes lives human and non human lived and unlived or unlivable central to any understanding of elections and democracy Crafting a new comprehensive approach this volume looks at the 2014 elections in relation to the changing nature and forms of elections and democracy globally Coming from multidisciplinary backgrounds the contributors to this volume use ethnographic observations to open up a space for new theoretical and methodological reflections on the role of media in Indian elections the shift to the right in 2014 and its consequences the significance of traditional Hindu spaces such as the river Ganga in BJP's victory the role of gurus like Baba Ramdev and the electoral choices available to and exercised by the minorities among others

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K-12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children's literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials

A United Kingdom? John Mohan, 2014-04-23 The human geography of the UK is currently being reshaped by a number of

forces such as globalisation transition in the organisations of production the changing character of state intervention and changing relationships with Europe A consideration of the impacts of these forces on economic social and political landscapes is therefore an urgent task At the same time enduring institutional features of the British economy and polity are also having important influences on socio economic processes The result is a complex mosaic of uneven development which belies the notion of simplistic regional contrasts Rather than simply mapping spatial inequality A United Kingdom charts the processes underpinning uneven development at a range of scales and for a number of key topics The book draws upon and synthesises the latest contemporary research findings and places emphasis on the interrelated nature of economic social and political geographies It treats the human geographies of the UK in a coherent and integrated way and asks whether contemporary processes of change are tending towards the reduction of socio spatial divisions or their reproduction in new forms

After the Vote Was Won Katherine H. Adams, Michael L. Keene, 2014-01-10 Because scholars have traditionally examined the efforts of American suffragists only in relation to electoral politics the history books have largely missed the real story of what these women achieved far outside the realm of voting reform Though Stanton Anthony and Mott are the best known figures of the woman s suffrage movement all were dead more than a decade before women actually achieved the vote Women like Alice Paul Louisine Havemeyer and Mary Church Terrell carried on their work putting their campaign experiences to work long after the 19th Amendment was ratified This book tells the story of how these women made an indelible mark on American history in fields ranging from education to art science publishing and social activism
