Grade 11 History Paper 1 2014:

Narrating the Soviet Era in Russian School History Textbooks Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917-1991. Representations of this part of Russia's past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin. This study combines research into these texts and inquiry into those who write, publish, approve or criticize them. Bringing together these perspectives provides a more complex view of school textbooks as final products of both top-down and bottom-up processes. This volume is aimed at postgraduate researchers and academics specializing in Soviet history, contemporary Russian politics and society, and history education and textbooks. History Education in Africa Gideon Boadu, Charles Adabo Oppong, 2024-07-12 This collection brings together African scholars in Africa and the diaspora to contribute to scholarly debates about critical issues in history teaching and learning in African schools. The book contributes to filling the gap in knowledge on African history, associated pedagogies and practices, and its consequent effects on research and the declining popularity of history in African schools. Specifically, the volume examines current trends and practices in history education in African schools, unveils the challenges and subtleties of teaching the next generation of teachers and students, and examines classroom practices and opportunities for engagement with historical concepts in African schools. The book adds a much-needed African voice to the international history education literature and contributes to strengthening the place of history teaching and learning in Africa. **Games and Learning Alliance**
