S. Ragan, Richard G. Lipsey, Zuzana Fromm, Roberto Martinez-Espineira, 2006-05 **Economyths** David Orrell, 2017-07-06 When Economyths was first published in 2010 David Orrell showed how mainstream economics is based on key myths such as fair competition rational behaviour stability and eternal growth and how these myths lead paradoxically to their opposites inequality an irrational economy financial instability and a collision with nature s limits Since then we ve had Occupy political upheaval flash crashes in financial markets the warmest few years in recorded history and a growing chorus demanding fundamental reform So how has economics responded In this revised and expanded edition Orrell shows how the ten myths still dominate economics He reveals their roots in thought that goes back to the ancient Greeks making them hard to dislodge And he uncovers demolishes and develops an alternative to the greatest economyth of all the one that will lead to the collapse of orthodox economics **Economics** Richard G. Lipsey, Christopher Ragan, 2003 This fully updated and revised text provides economics

Is the Debt War Over? Christopher Ragan, William G. Watson, Institute for Research on Public Policy, 2004

The Big Stall Donald Gutstein, 2018-10-02 In fall 2015 the newly elected Trudeau government endorsed the Paris Agreement and promised to tackle global warming In 2016 it released a major report which set out a national energy strategy embracing clean growth technological innovation and carbon pricing Rather than putting in place tough measures to achieve the Paris targets however the government reframed global warming as a market opportunity for Canada's clean technology sector The Big Stall traces the origins of the government's climate change plan back to the energy sector itself in particular Big Oil It shows how in the last fifteen years Big Oil has infiltrated provincial and federal governments academia media and the non profit sector to sway government and public opinion on the realities of climate change and what needs to be done about it Working both behind the scenes and in high profile networks Canada's energy companies moved the debate away from discussion of the measures required to create a zero carbon world and towards market based solutions that will cut carbon dioxide emissions but not enough to prevent severe climate impacts This is how Big Oil and think tanks unraveled the Kyoto Protocol and how Rachel Notley came to deliver the Business Council of Canada's energy plan Donald Gutstein explains how and why the door has been left wide open for oil companies to determine their own futures in Canada and to go on drilling new wells building new oil sands plants and constructing new pipelines This book offers the background information readers need to challenge politicians claiming they are taking meaningful action on global warming
