Civic Education 2014 Past Question

Eric Gordon, Paul Mihailidis

Civic Education 2014 Past Question :

The Politics of Civic Education Eleni M. Mantas-Kourounis, 2024-06-10 This book chronicles the progression of civic education advocacy since the early 2000s. It identifies the main actors that called for civic education reform, describes their motivations and policy platforms, and documents the path taken to capture state policy agendas. It argues that No Child Left Behind incentivized civic education advocates to mobilize a call to action to restore emphasis on civics that materialized into national policy reform proposals that successfully captured the agendas of state legislatures and bureaucracies. This book analyzes the implementation and sustainability of these civic education policy reforms by undertaking a comparative case study analysis of school districts in Utah and Connecticut. Through the voices of teachers and district administrators, the book tells the story of what happened when these state policy reforms inspired by national initiatives hit the local level where the rubber meets the road. As ideological debates about schools and democracy unfold across the country, as civic education advocates and proposals proliferate, this book treats civic education not as a panacea but as a concrete policy area to be analyzed and understood. It contextualizes the current debate and offers a critical assessment of the most recent comprehensive state level civic education policy reform. It argues that while questions linger about what type of civic inspired educational interventions remains most effective for whom, where and why the implementation of such interventions are profoundly impacted by local actors and local politics, and that future initiatives should take this dimension into consideration.

Global Migration and Civic Education James A. Banks, 2023-05-08 Global migration, the rise of popular nationalism, and the quest by diverse racial, ethnic, cultural, linguistic, and religious groups for recognition, civic equality, and structural inclusion within their nation states have complicated the attainment of citizenship in countries around the world. Virulent and pernicious nationalism in some nations, including the United States, the United Kingdom, Hungary, Switzerland, and Italy, has made it difficult for migrant, refugee, and other marginalized groups to attain citizenship rights and to fully participate in their nation states. The enormous increase in the number of migrant and refugees in many nations has also complicated citizenship acquisition for marginalized populations. In this book, scholars working in civic education from selected nations share perspectives, policies, research, and strategies for constructing and implementing civic education programmes that will help students from diverse racial, ethnic, cultural, linguistic, and religious groups attain political efficacy and become structurally integrated and fully participating citizens of their nation states. This book was originally published as a special issue of the journal *Intercultural Education*. **Solved Papers** YCT Expert Team, 2023-24 HPSC HCS Paper I II General Study C SAT

Public Policy Michael E. Kraft, Scott R. Furlong, 2020-01-07 Kraft and Furlong provide students with a conceptual understanding of public issues and how the public policy process functions. This book also provides a forum for discussions of social, economic, and sustainable development issues, their characteristics, and impacts on human beings, citizens, as well as the environment. It will give students the needed tools to make informed economic and human development decisions that could lead to sustainable growth, human capacity building, and better lives. Robert D. Ibie, Indiana University Kokomo. With the right information, we can develop public policies that work better. All too often, public policy textbooks offer a basic grounding in the policy process without the benefit of integrating the use of policy analysis. Kraft and Furlong take a different tack. Public Policy: Politics, Analysis, and Alternatives, Seventh Edition, helps students understand how and why policy analysis is used to assess policy alternatives. The text encourages them to not only question the assumptions of policy analysts but also recognize how these strategies are used in the support of political arguments. The authors introduce and fully integrate an evaluative approach to policy to encourage critical and creative thinking on issues ranging from health care to climate change. From a concise review of institutions, policy actors, and major theoretical models to a discussion of the nature of policy analysis and its practice, Kraft and Furlong show students how to employ evaluative criteria in six substantive policy areas. Students come away with the analytic tools they need to understand that the motivations of policy actors, both within and outside of government, influence a complex yet comprehensible policy agenda.
