State of the Arts Jonas Tinius, 2023-08-02 This is a bold and wide ranging account of the unique German public theatre system through the prism of a migrant artistic institution in the western post industrial Ruhr region State of the Arts analyses how artistic traditions have responded to social change racism and cosmopolitan anxieties and recounts how critical contemporary cultural production positions itself in relation to the tumultuous history of German state patronage difficult heritage and self cultivation through the arts Jonas Tinius fieldwork with professional actors directors cultural policy makers and activists unravels how they constitute theatre as a site for extra ordinary ethical conduct and how they grapple with the pervasive German cultural tradition of Bildung or self cultivation through the arts Tinius shows how anthropological methods provide a way to understand the entanglement of cultural policy institution building and subject formation An ambitious and interdisciplinary study the work demonstrates the crucial role of artistic intellectuals in society The Mobile Learning Voyage - From Small Ripples to Massive Open Waters Tom H. Brown, Herman J. van der Merwe, 2015-10-14 This book constitutes the proceedings of the 14th International Conference on Mobile and Contextual Learning mLearn 2015 held in a cruise ship leaving from and arriving to Venice Italy in October 2015 The 22 revised full papers and 6 short papers presented were carefully reviewed and selected from 81 submissions The papers deal with the topics related to the theme of the conference The mobile learning voyage from small ripples to massive open waters The conference theme paid tribute to the developments that brought mobile learning from its infancy steps in the early 2000s to maturity in 2015 while simultaneously paving the way for the broad and open waters ahead with new developments and progress in mobile learning and emerging ambient technologies **Digital Turn in Schools—Research, Policy, Practice** Terje Våljetaga, Mart Laanpere, 2019-06-04 This volume is a compilation of selected papers that were presented at the annual conference of the International Council of Educational Media ICEM in Tallinn Estonia on September 5 7 2018 The book reports on recent interdisciplinary research and innovative practices regarding school wide implementation of digital innovation and connects it with recent developments in the field of educational media The key concept is Digital Turn which is understood as a socio technical transition towards next generation digital learning ecosystems in education Although Digital Turn can also be implemented at the classroom or national levels most of the contributions in this volume take a whole school perspective on the policies and practices regarding digital innovation educational media e assessment digital competences of teachers and students as well as learning design and learning analytics **The Mining Journal, Railway and Commercial Gazette**, 1896 **Public Participation in Transport in Times of Change** Lisa Hansson, Claus Hedegaard Sørensen, Tom Rye, 2023-05-03 Public Participation in Transport in Times of Change discusses various forms of public participation in connection to sustainable mobility transport planning policy health infrastructure and active travel creating a comprehensive analysis relevant for both practitioners and researchers who operate within the transport field Imperative of Economic Growth in the Eurozone: Competitiveness,

Capital Flows and Structural Reforms Lubor Lacina, Antonin Rusek, 2018-01-15 European economic recovery appears to be taking hold So is the European crisis over The acute phase of the crisis passed however a number of medium and long term issues remain The policies of internal devaluations are working albeit slowly to restore competitiveness in the countries most affected by the crisis However growth remains at best sluggish The medium and long term outlook remains highly uncertain fomenting social tensions and endangering political stability The restoration of economic dynamism is increasingly perceived as the answer to the question of the European future economically politically and socially There is a broad consensus that dynamic structural reforms and the restoration of competitiveness at the level of the global economy are key answers to current European challenges However whatever the form these may take the transfer of resources is implicit and seemingly necessary to underpin the current structure of eurozone This indeed raises the question of governance both fiscal and monetary After all the provision of resources implies an allocation and it is hard to imagine that resources will be provided to the common pool unless the providers have some say with respect to allocation And that requires some form of common i e centralized decision making procedures in all likelihood exceeding the common understanding of the *acquis communautaire* as it exists today i e some form of the effective political arrangement In this context the basic idea which connects all contributions in this volume is the analysis of the problems which affected the Eurozone in the past decade and the challenges and dilemmas the Eurozone will face in the coming years **Commerce Business Daily** ,1998-05 Group Experience as a Resource Volker Münch, 2025-04-11 This textbook for psychotherapists and group therapists encourages the reader to reflect on their own group experiences throughout their life journey and to relate these insights to therapy processes Psychological life and personal development always occur within networks Analytical group therapy utilizes this and makes psychological processes visible that often remain unclear in individual treatments Our understanding of human psychological development is transforming in light of neuroscientific findings and against the backdrop of the complex societal challenges of our time evolving into a view of humans as social animals We are witnessing a resurgence in group therapy and an openness to theories that emphasize our mutual dependence in a positive sense Togetherness and solidarity can thus be practiced collectively unleashing transformative power for change in individuals but also for society Many relatable examples especially from therapeutic groups illustrate this Written for Psychotherapists group therapists group leaders in the medical and social fields About the Author Dipl Psych Volker Münch Psychological Psychotherapist in private practice in Munich Teaching analyst supervisor and lecturer at MAP Munich Publications on topics such as therapeutic attitude digitalization and midlife crisis *Abbott's Digest of All the New York Reports ...* ,1890 *A View from the Herd* Richard W. Redding, 2024-04-15 In this book the late Richard Redding synthesizes his decades long work on the ancient agricultural economy of Egypt Drawing on a diverse range of data including zooarchaeology ancient texts and iconographic sources he explores the role of cattle sheep goats and pigs in the economic infrastructure of ancient mainly Pharaonic Egypt

and the complexities of decision making processes that shaped the use and management of these vital livestock resources The book integrates zooarchaeological and historical data with information on unimproved breeds of cattle sheep goats and pigs from Egypt and the broader Middle East as well as considers texts and tomb paintings Redding argues that understanding the interplay between economic forces environmental factors and herders knowledge of animal characteristics is crucial for unraveling the dynamic nature of decision making The author explores herd growth rates meat yields caloric and nutritional benefits and optimal herd structures By employing that data and ecological models including the annual Nile floods he provides insights into the adaptive strategies employed by ancient Egyptian herders In this way Redding examines the economic rationale behind ancient Egyptian herding communities His models of Pharaonic herding strategies generate expectations tested using zooarchaeological evidence Redding long advocated the modeling approach he demonstrates here understanding zooarchaeological data through a lens of animal biology and environmental context This work should therefore spark wide interest among archaeologists working in disparate regions

**Iconoclasts** James Huneker,2015-02-12 Example in this ebook I HENRIK IBSEN I THE INDIVIDUALIST The Kingdom of God is within you Ferdinand Bruneti re has declared that there can be no tragedy without a struggle nor can there be genuine emotion for the spectator unless something other and greater than life is at stake This so exactly defines the dramas of Henrik Ibsen that it might have been specifically written to describe their dramatic and ethical content Whatever else Ibsen s works may be they are first soul dramas the human soul is not only their shadowy protagonist but it is the stake for which his characters breathlessly game throughout the vast halls of his poetic and historic plays and within those modern middle class apartments where the atmosphere seems rarefied by the intensity of the struggle Greater than life means for Ibsen the immortal soul immortal not in the theologic but generic sense the soul of the species which never had a beginning and never can have an end With this precious entity as pawn on Ibsen s dramatic chess board the Bruneti re dictum is perfectly fulfilled Let us apply to him and his plays a symbol let us symbolize the arch symbolist Ibsen is an open door The door enacts an important r le with him Nora Helmer in A Doll s House goes out of the door to her new life and in The Master Builder Hilda Wangel typifying the younger generation enters to Solness An open door on the chamber of the spirit is Ibsen Through it we view the struggle of souls in pain and doubt and wrath He himself has said that the stage should be considered as a room with the fourth wall knocked down so that the spectators could see what is going on within the enclosure A tragic wall is this missing one for between the listener and the actor there is interposed the soul of the playwright the soul of Ibsen which prism like permits us to witness the refractions of his art This open door this absent barrier is it not a symbol What does Henrik Ibsen mean to his century Is he dramatist symbolist idealist optimist

pessimist poet or realist Or is he a destructive a corroding force Has he constructive gifts aside from his technical genius He has been called an anarchic preacher He has been described as a debaser of the moral coin He has been ranged far from the angels and his very poetic gifts have been challenged Yet the surface pessimism of his plays conceals a mighty belief in the ultimate goodness of mankind Realist as he is his dramas are shot through with a highly imaginative symbolism A Pegasus was killed early under him as Georg Brandes says but there remains a rich remnant of poesy And may there not be deduced from his complete compositions a constructive philosophy that makes for the ennoblement of his fellow beings Ibsen is a reflective poet one to whom the idea presents itself before the picture with Shakespeare and Goethe the idea and form were simultaneously born His art is great and varied yet it is never exercised as a sheer play of form or colour or wit A Romantic originally he pays the tax to Beauty by his vivid symbolism and his rare formal perfections And a Romantic is always a revolutionist Embittered in youth proud self contained reticent he waged war with life for over a half century fought for his artistic ideals as did Richard Wagner and like Wagner he has swept the younger generation along with him He the greatest moral artist of his century Tolstoy not excepted was reviled for what he had not said or done so difficult was it to apprehend his new elusive method A polemist he is as were Byron and Shelley Tolstoy and Dickens Turgenev and Dosto evsky To be continue in this ebook      Wireless Information and Power Transfer: A New Paradigm for Green Communications Dushantha Nalin K.
