## **Being And Time Harper Perennial Modern Thought:**

Being and Time Martin Heidegger, 1967 A knowledge of Heidegger's Sein und Zeit is essential for anyone who wishes to understand a great deal of recent continental work in theology as well as philosophy Yet until this translation first appeared in 1962 this fundamental work of one of the most influential European thinkers of the century remained inaccessible to English readers In fact the difficulty of Heidegger's thought was considered to be almost insuperable in the medium of a foreign language especially English That this view was unduly pessimistic is proved by the impressive work of John Macquarrie and Edward Robinson who have succeeded in clothing Heidegger's thought in English without sacrificing the richness and poetic subtlety of the original *Politics and Heidegger's Concept of Thinking in Contemporary Art* Louise Carrie Wales, 2021-09-16 Responding to Heidegger's stark warnings concerning the essence of technology this book demonstrates art's capacity to emancipate the life world from globalized technological enframing Louise Carrie Wales presents the work of five contemporary artists Martha Rosler Christian Boltanski Krzysztof Wodiczko and collaborators Noorafshan Mirza and Brad Butler who challenge our thinking and compel a dramatic re-positioning of social norms and hidden beliefs The through line is rooted in Heidegger's question posed at the conclusion of his technology essay as understood through artworks that provides a counter to enframing while using increasingly sophisticated technological methods The themes are political in nature and continue to have profound resonance in today's geopolitical climate The book will be of interest to scholars working in art history aesthetics philosophy and visual culture How to Think Seriously about the Planet Roger Scruton, 2014-10 Roger Scruton here makes a plea to rescue environmental politics from the activist movements and to return them to the people The book defends the legacy of home building and practical reasoning with which ordinary human beings solve their environmental problems and attacks the alarmism and hysteria that are being used to uproot these resources while putting nothing coherent in their place **Katherine Mansfield and Literary Modernism** Janet Wilson, Susan Reid, Gerri Kimber, 2011-07-07 A reinterpretation of Katharine Mansfield's work that expands our understanding of her place in Modernism **Rabbi Yitzchak Hutner's Theology of Meaning** Alon Shalev, 2025-05-15 Rabbi Yitzchak Hutner's Theology of Meaning explores the profound enigmatic and novel thought of Rabbi Yitzchak Hutner combining innovative analysis with rigorous textual and historical research Through a reconstruction of his intellectual biography and the conceptual framework underlying his ideas this volume generates a hermeneutical key to decipher his writings revealing their focal points and systematic coherence and positioning him as a post-existentialist theologian bridging Jewish tradition modern philosophy and existential inquiry The methodology presented offers a valuable model for analyzing complex intellectual systems making it essential reading for scholars of philosophy theology and intellectual history Theology Beyond Metaphysics Anthony Bartlett, 2020-12-08 A theory of human origins that is one half Charles Darwin and one half Cain and Abel is bound to entail a lot of rethinking of traditional themes Rene Girard's thesis of original human

violence and the Bible's power to reveal it has been around for more than a generation but its consequences for Christian theology are still only slowly being unpacked. Anthony Bartlett's book makes a signal contribution representing an astonishing leap forward in understanding what a biblical disclosure of founding violence means for Christian thought and life. If human language arose directly out of the primal experience of murder then semiotics becomes a core area for theological examination. Tracing the discipline of semiotics through postmodern thinkers then back through its birth in the Latin era, Bartlett shows how Girard's thought is itself a semiotic emergence beyond standard Christian metaphysics. Above all, Girardian theory of human signs demands we see the generative impact of violence in our language and thought and then conversely that the Word of God crucified without retaliation and risen in the same identity brings a totally new sign and relation into history, offering a thoroughgoing transformation of human life and meaning.

**We Hold These Truths to Be Self-Evident: The National Guard and the Categorical Imperative** Anne C. Armstrong, 2021-09-07 In this monograph Dr Armstrong argues that a nation founded in Enlightenment theory can rely on Kant's categorical imperative as a rationale for voluntary service in one's local National Guard. Since the 19th century a Utilitarian argument has been the favored rationale but in *We Hold These Truths to be Self-Evident: The National Guard and the Categorical Imperative* Dr Armstrong contends that there is also a normative rationale. The author traces Guard history from its inception in 1636 to the present day and applies Kant's unchanging categorical imperative to volunteer service in the militias. She highlights that this is an ideal that is not always met by frail human beings but that the categorical imperative is always there lurking in the historical record. With a thorough analysis of Kant's reasoning the theory is chronologically applied to volunteer service in the National Guard through the perspective of the leadership of each particular era. This book is ideal for the study of American history, Enlightenment philosophy and political science. It will appeal to scholars and academics as well as officers in Professional Military Education, PME service academies and War Colleges and the National Defense University.

**Way to Work** Michele R. Reillo, 2015-06-01 *Way to Work* is a compelling phenomenology that chronicles the extraordinary success of Coach Marian Washington. Against insurmountable odds Coach Washington excelled on the court, triumphed as a coach and contributed to the enactment of the civil rights law dubbed Title IX. The greatest challenge of Title IX was not in the passage of the law but in the implementation. *Way to Work* presents Coach Washington's plight to achieve equality for women in athletics illuminated against historical highlights to define the enormity of her triumph in making Title IX a lifelong reality for all women in sport.

**An Architecture of Place** Randall S. Lindstrom, 2024-06-25 Challenging mainstream architecture's understandings of place, this book offers an illuminating clarification that allows the idea's centrality in all aspects of everyday design thinking to be rediscovered or considered for the first time. Rigorous but not dense, practical but not trivialising, the book unfolds on three fronts. First it clearly frames the pertinent aspects of topology, the philosophy of place, importantly differentiating two concepts that architecture regularly conflates: place and space. Second it rejects the

ubiquitous notion that architecture makes place and instead reasons that place is what makes architecture and the built environment possible that place calls for and to architecture and that architecture is thus invited to listen and respond Finally it turns to the matter of designing responses that result not just in more places of architecture demanding little of design nor merely in architecture with some sense of place demanding little more but rising above those responses that constitute an architecture of place demanding the greatest vigilance but offering the utmost freedom Opening up a term regarded as so common that its meaning is seldom considered the author reveals the actual depth and richness of place its innateness to architecture and its essentiality to practitioners clients educators and students including those in all spatial disciplines

*The Existential Playbook* Stephen Bruyant-Langer, 2024-09-19 Make your future the best thing that will ever happen to you Finding meaning clarity and direction in our lives is challenging It raises big questions about who we are what we want and what it takes to survive live and thrive in today's world The Existential Playbook is your guiding light a powerful and optimistic companion for when you're at life's crossroads searching for answers about what to do next Drawing on decades of rich real world experience distinguished executive coach economist lecturer and keynote speaker Stephen Bruyant Langer artfully and playfully empowers you to navigate transitions in your personal and professional life with grace resilience and positivity Blending practical tools effective models and real life case studies with psychological insights and wisdom from the ancient philosophers to cutting edge modern science and technology you'll discover how to shape a better tomorrow for yourself and those around you As you progress you'll reveal actionable steps that will inspire change create meaning and lead you to a state of relaxed readiness for whatever your future holds liberating you to be your true authentic self and live a fulfilling life With insights from experts in philosophy psychology neurology and strategy Stephen leverages his proven 10 step executive coaching system alongside his brand new Nordic Leadership Model His powerful approach builds on the existentialist principles of choice action and responsibility providing you with a transformative roadmap to successfully edit your past curate your present and design a future you'll love

*Democracy and Time in Cuban Thought* María de los Ángeles Torres, 2024-01-30 In this analysis of political discourse in Cuban culture María de los Angeles Torres focuses on how the concept of time has been employed by different political projects arguing that an emphasis on human actions in the present is important for a democratic political culture

**The Artist-Philosopher in the Age of Addiction** George Smith, 2025-03-17 George Smith argues that modern humanity suffers from a late stage pre fatal addiction to scientific technological thinking Like most pre fatal addictions this one will most likely result in one of three ways misery extinction or human transformation The question remains wherein lies the third way According to Smith mankind's chronic and as yet undiagnosed sickness originates in early Western metaphysics and has long been thoroughly globalized It explains unstoppable extractionism and its relentlessly increasing by product carbon dioxide It also explains today's ever increasing rate of species extinction and the increasingly likely collapse of the biosphere Citing climate change tolerance and denial as

symptomatic of pre fatal addiction Smith turns his analysis to Heidegger s question concerning technology and shows that even Heidegger had become hooked on scientific technological thinking Surrendering to his disease Heidegger steps back into meditative thought This in turn opens Heidegger to an East West mode of scientific poetic consciousness the thinking of artist philosophers such as Laozi H Iderlin and Rachel Carson For Heidegger this way of thinking lays the path to mankind s transformative emancipation from an otherwise inescapable catastrophe The book will be of interest to scholars of the arts and culture histories of consciousness and climate studies

The Abyss And The Ascent: Nihilism And The Quest For Meaning In Nietzsche And Heidegger (Revised Edition) Rifqi Khairul Anam, In the suffocating expanse of the contemporary intellectual landscape where a meaningless deluge of data has drowned every guiding star of significance a primordial scream of dissonance echoes The Abyss And The Ascent unmercifully confronts the terrifying specter that mocks modernity s hollow victories nihilism This is not merely an absence rather it is a cataclysmic implosion of the very foundations of value leaving behind only the dust of shattered axiological frameworks This text plunges into the heart of darkness embodied by its most merciless philosophical anatomists Friedrich Nietzsche and Martin Heidegger Nietzsche with his vivisection of the festering crisis of values consuming the contemporary world reveals how the erosion of value has hurled humanity into the bottomless pit of emptiness Heidegger through his terrifyingly profound phenomenological dismantling of existence unearths the primordial abyss from which nihilism first erupted within the history of Western thought tracing its tendrils to modern humanity s misunderstanding of fundamental existence itself With uncompromising force this book builds a monstrous and unbearable bridge between abstract philosophical inquiry into the question of what it means to be and the palpable reality of human experience drowning in the forgetting of fundamental existence This is no mere academic exercise it is a brutal exposure of nihilism as a complex and relentlessly agonizing psychological torment irrevocably warping the very contours of lived experience scarring the subjective apprehension of reality with the indelible mark of meaninglessness Moving beyond academic squabbles we meticulously align Nietzsche s frenzied psychology of value with Heidegger s chillingly precise phenomenological vivisection of fundamental moods and the skeletal architecture of existential structures The result is a disturbingly clear and multifaceted illumination of nihilism s desolate and decaying inner landscape exposing its festering wounds and bottomless chasms The Abyss And The Ascent is a call to life an unending journey of self discovery and engagement with the world Like Nietzsche s tightrope walker navigating the abyss we must maintain balance and forward momentum like Heidegger s shepherd of being we must cultivate an attunement to the world remaining open to the unexpected revelations that may emerge This is a sanity shattering contribution to the ongoing philosophical and psychological confrontation with the inescapable and defining terrors of our age

**Liminality and the City in Contemporary New York Fiction** Alina Stocklöv, 2025-04-16 This book explores liminal spaces and states in New York City literature after 2000 The concept of liminality refers to a transitional state where people places or ideas exist between two

clearly defined conditions In this ambiguous in between state uncertainty indeterminacy and change prevail temporarily suspending traditional norms and allowing for complex identity formation and social reordering Liminality offers a multifaceted interdisciplinary approach to urban literature as the city itself is defined by both temporal and spatial thresholds The study examines the interplay between liminality the city and postmodernism as well as the literary representation and narrative depiction of these relations Drawing on key anthropological works by Arnold van Gennep and Victor Turner and engaging with the writings of Jacques Derrida Henri Lefebvre Carl Gustav Jung Michel Foucault Walter Benjamin and Homi K Bhabha this study investigates the development of the concept of liminality in the humanities It then proceeds with comparative literary analysis of selected texts by canonical authors such as Don DeLillo Jonathan Safran Foer Joseph O Neill and Teju Cole focusing on urban mobility liminal spaces and New York as a place of memory and trauma in the post 9 11 literary landscape

**The Technological Construction of Reality** Dionysios S. Demetis,Ian O. Angell,2024-07-05 This visionary book delves into the world shaping abilities of modern technology outlining the potential future transformations that it may impose By drawing from a range of scholarly insights Dionysios S Demetis and Ian O Angell explore how technology not only influences our social economic political biological and physical realities but how it can also construct completely new ones

**Behind the Masks of Modernism** Andrew Reynolds,Bonnie Roos,2016-02-24 A wide ranging collection that allows the mask as artifact metaphor theatrical costume fetish strategy for self concealment and treasured cultural object to clarify modernity s relationship to history Carrie J Preston author of Modernism s Mythic Pose Gender Genre Solo Performance Covering an impressive range of geographies cultures and time periods these carefully researched essays explore the fascinating role of masks and masking in mediating the relationship between tradition and modernity in both art and literature Paul Jay author of The Humanities Crisis and the Future of Literary Studies Behind the Masks of Modernism reconsiders the meaning of modernism by taking an interdisciplinary approach and stretching beyond the Western modernist canon and the literary scope of the field The essays in this diverse collection explore numerous regional national and transnational expressions of modernity through art history architecture drama literature and cultural studies around the globe Masks both literal and metaphorical play a role in each of these artistic ventures from Brazilian music to Chinese film and Russian poetry to Nigerian masquerade performance The contributors show how artists and writers produce their works in moments of emerging modernity aesthetic sensibility and deep societal transformations caused by modern transnational forces Using the mask as a thematic focus the volume explores the dialogue created through regional modernisms emphasizes the local in describing universal tropes of masks and masking and challenges popular assumptions about what modernism looks like and what modernity is

**Philosophy of Mind and Phenomenology** Daniel O. Dahlstrom,Andreas Elpidorou,Walter Hopp,2015-08-11 This volume identifies and develops how philosophy of mind and phenomenology interact in both conceptual and empirically informed ways The objective is to demonstrate that

phenomenology as the first personal study of the contents and structures of our mentality can provide us with insights into the understanding of the mind and can complement strictly analytical or empirically informed approaches to the study of the mind Insofar as phenomenology as the study or science of phenomena allows the mind to appear this collection shows how the mind can reappear through a constructive dialogue between different ways phenomenological analytical and empirical of understanding mentality

**Aesthetic Noise** Mary G. Mazurek, 2025-03-03 Aesthetic Noise The Philosophy of Intentional Listening considers the complex nature of noise within the framework of philosophical filtering examining how if noise is engaged with aesthetically it can produce profound experiences and understandings Applying the philosophies of Edmund Burke Martin Heidegger Jacques Derrida and Julia Kristeva to works by Luigi Russolo John Cage Steve Reich Alison Knowles Annea Lockwood Alyce Santoro and Sunn O this book explores noise as an art material and ultimately how it can become a tool for activism and expanded creative possibilities It demonstrates that by engaging multiple philosophies in concert the value of aesthetic noise is amplified thus allowing the listener to better appreciate noise and its possibilities Providing greater insights into noise as an aesthetic material Aesthetic Noise will be of interest to researchers and students of sound studies philosophy and sound art as well as sound designers artists musicians and composers *Truth and Experience*

Gaetano Chiurazzi, Dorthe Jørgensen, Søren Tinning, 2016-01-14 The spirit of this book is explorative It meets the contemporary challenge posed by experience and truth with a critical openness that allows for the full complexity of these concepts to be investigated The distinction between experience and truth has become subject to finitude how then can these words and concepts be defined What might be understood by experience and truth when the distinction between them is not transformed once and for all eternally but once and again historically The contributors to the book investigate a wide range of questions revolving around this challenge to the contemporary understanding of experience and truth They do so through the perspectives of phenomenology and hermeneutics while also shedding new light on phenomenological and hermeneutic thought as such on the distinction between phenomenology and hermeneutics as well as on the interrelation between such philosophical thought and other fields of thought and culture [The Secrets of Immortality](#) Prof. Dr. Ernst von

Schwarz, 2023-08-01 In view of progressive research advances in biotechnology and medicine the prospect of living longer increased longevity increased health span and even biologic immortality has become more real than ever before The Secrets of Immortality evaluates humankind's continuous quest for immortality an integral part of human nature With hundreds of millions of dollars being spent on anti aging and immortality research some futurists believe that within a few decades man will be able to live up to 150 years if not more Some believe that the first person to live up to 1000 years old is already alive today While this sounds like a premise from science fiction The Secrets of Immortality describes the current state of biotechnology and medical research data and the possibilities of anti aging and natural or biologic immortality within the near future Prof Dr Ernst von Schwarz wrote The Secrets of Immortality from a theological point of view examining

everlasting life from the perspective of different religions with a main emphasis on the Roman Catholic tradition Dr Schwarz is a physician transplant cardiologist and researcher but he is also a theologian offering a unique perspective to longevity and immortality
