The Highlanders Last Song By George MacDonald:

The Highlander's Last Song George MacDonald, 1986 A once mighty highland clan must deal with the forces of change which sweep upon them during the beginning of the nineteenth century

What's Mine's Mine (Vol. 1-3) George MacDonald, 2020-05-17 What's Mine's Mine is a novel set in the wilds of Scottish Highlands in the middle of the 19th century that captures one of the most important periods of Scottish history the crumbling of the clans and the migrations of the impoverished clansmen and farmers as their homeland is bought out from under them by the rich and mercenary landowners from the south Among those ambitious and gain seeking men is the protagonist of this novel Peregrine Palmer who has just moved with his family to the Highland Region

The Literature of the Highlanders: A History of Gaelic Literature from the Earliest Times to the Present Day Nigel MacNeill, 2005-01-01 The Celts and the Teutons started westward from the cradle of the human race spreading themselves over Europe while other members of the same stock went eastward extending themselves over wide tracts of Asia From the Celts the Greeks the Romans and the Teutons have sprung the chief nations in whose possession Europe still remains It is interesting to think that the brothers who parted thousands of years ago somewhere in teeming Asia the one going east and the other west are now meeting again on the plains of Hindostan Their movements during those thousands of years have encircled the whole earth Fiercely have they fought and disputed over every inch of the ground which one or other of their tribes at one time or other occupied Theirs has always been the chief ruling power in the world They begin to know one another again From the extreme west of Europe across the New World the Anglo Celt arrives in India and recognises the Hindoo as his brother The Aryans migrated into Europe in a somewhat advanced state of civilisation According to Sayce their advent was from the north a theory which subverts nearly all previously accepted opinions on the subject Some of them however such as the Greeks first and the Romans afterwards favoured by the maritime countries in which they settled made more rapid progress than the others It was largely their self conceit that led the Greeks and Romans to describe all the nations beyond their bounds as barbarian Our ancestors in these islands whether Celtic or Teutonic were never mere savages They had a religion if not radically the same fully as ennobling in its tendency as that of Greece and Rome They evidently made some progress in the useful arts while in the days of Rome's greatest splendour they were in possession of military weapons which were not much inferior to her own The form of government among the Celts was patriarchal and this continued for a long time among the Gaels of Scotland There was the king or chief who was regarded as the father of the clan tribe or nation With him was associated a council of chieftains or elders and in important matters the mot of the whole people But with all this political organisation they could not make such progress in civilisation as the Greeks and Romans who mostly dwelt in cities The Gaels who along with the Germans acted the part of pioneers on the plains of Europe and living a rural life could not compete successfully in the race for higher civilisation with the brother races who inhabited the maritime cities of Greece and Italy and who besides obtained much of an

earlier civilisation from Phoenicia and Egypt The early migrations of the Gael are involved in much obscurity By the study of topography however we can follow many of his footsteps westward This study however is rendered very difficult and at times very uncertain because the discoverable traces of the presence of the Celt lie embedded in the soil of the life of the powerful pre Celtic races The Celt and the Teuton have always been close neighbours The progress of the two westward appears to have been somewhat simultaneous at least on the Continent The geographical positions of France and Germany at the present day represent not inaccurately the attitude of the Gaelic and Teutonic races towards one another in their earlier movements from the east It has been said that the Celts came too soon into Europe just as the Slaves came too late It would be difficult to verify this remark in the light of history and in the face of existing facts While admitting that the remark may have an element of truth in it we must remember with regard to the Slaves that it is premature to anticipate what they may become We see them a mighty threatening wave on a westward course The Chinese hordes who are already a trouble press behind the Russians and the growing power of the latter in Europe is a matter of serious concern to our statesmen The struggle between Celt and Teuton again cannot be said to be at an end as long as France and Germany maintain their present watchful and hostile attitude As to their racial composition respectively the former may be said to be as much Celtic as the latter is Teutonic But on the other hand in the United Kingdom Celt and Teuton may be said virtually to agree They have so blended for centuries that notwithstanding boasts on both sides which science cannot sustain it is impossible almost to produce a pure Saxon or a pure Gael It cannot certainly be done in Scotland This intermingling of races in the British Islands has produced a national character very unlike our Continental neighbours The Anglo Celtic power of the British Empire is not so immobile or sluggish as the German nor so light and airy as the French and its rule appears almost to have arrived at the incipient stage of universal dominion Great Britain was peopled in the north and in the south simultaneously from the Continent and Ireland was similarly peopled from the north and south of Britain The Gaels of Ireland and of Scotland were the same people having the same language and music and all the elements of civilisation about them were the common property of both At the same time there are evidences that the Gaels of the North of Ireland stood in closer relationship to those of Scotland than those in the South of Ireland And this holds true even to this very day It should always be borne in mind that there have been different tribes of pre Celts Celts and Teutons in Ireland which has hitherto prevented that national cohesion in the time of danger which alone could secure the independence of the country Ireland being peopled at a later period has taken a longer time in developing a full orb'd nationality On the other hand there has been an earlier homogeneity among the Scottish Celts whether called Picts Gaels Scots or Albanaich they were always one against the common foe whatever might be the feuds among themselves In more recent days the reformation of religion in the 16th century helped to produce in the Scottish Gael a distinctively different character from that of the Gael of Ireland it also destroyed in Scotland many of the old Gaelic things which were associated with a religion that was regarded as superstitious

Thus much of the history and the literature of the Scottish Gael was lost In Ireland where no violent changes took place in the condition and religious beliefs of the people we find very extensive manuscript literature rich with interesting spoils of the past as well as more relics even of earlier Gaelic life in Scotland What's Mine's Mine George MacDonald,2020-12-17
