in our society Emphasizing how social phobias reflect the interests of those with political economic and cultural power this work challenges the idea that society's anxieties are merely expressions of individual psychology Manufacturing Phobias will be a clarion call for anyone concerned about the disturbing consequences of our culture of fear **At Home in the Whedonverse** Juliette C. Kitchens, 2017-06-13 From *Buffy the Vampire Slayer* to the Marvel Cinematic Universe Joss Whedon's work presents various representations of home spaces that give depth to his stories and storytelling Through the spaceship in *Firefly* a farmhouse in *Avengers Age of Ultron* or Whedon's own house in *Much Ado About Nothing* his work collectively offers audiences the opportunity to question the ways we relate to and inhabit homes Focusing on his television series films and comics this collection of new essays explores the diversity of home spaces in Whedon's many verses and the complexity these spaces afford the narratives characters objects and relationships within them Analyzing the Marvel Universe Douglas Brode, 2024-10-30 Marvel like other media universes is a collection of highly profitable and audience satisfying products that exist not only as individual items of popular culture but coalesce to form a unique and all encompassing identity Within media studies elements of popular culture once dismissed as low brow entertainment are now studied with the seriousness that has always been afforded classics like Shakespeare's plays and ancient myth Indeed DC and Marvel might be thought of as competing myth systems This book is a collection of diverse essays covering all aspects of the Marvel Universe from in print graphic novels to film and television variations Contributors present in depth original and inclusive interpretations of numerous individual elements of Marvel including analysis of key characters themes and aesthetic elements They also offer a vision of the essential meaning of Marvel including aspects that set it apart from the DC Universe and other media Individual readings apply feminist ethnic and queer theory among others and deal with the lesser known aspects of Marvel's offerings in order to provide the definitive collection on this subject Beginning with an introduction by the editor that provides a complete overview of the Marvel canon this book offers the broadest and most in depth collection on the subject to date *Television and Serial Adaptation* Shannon Wells-Lassagne, 2017-01-20 As American television continues to garner considerable esteem rivaling the seventh art in its cinematic aesthetics and the complexity of its narratives one aspect of its development has been relatively unexamined While film has long acknowledged its tendency to adapt an ability that contributed to its status as narrative art capable of translating canonical texts onto the screen television adaptations have seemingly been relegated to the miniseries or classic serial From remakes and reboots to transmedia storytelling loose adaptations or adaptations which last but a single episode the recycling of pre-existing narrative is a practice that is just as common in television as in film and this text seeks to rectify that oversight examining series from *M A S H* to *Game of Thrones* *Pride and Prejudice* to *Castle* *Storytelling Industries* Anthony N. Smith, 2018-06-28 This book shows how the unique characteristics of traditionally differentiated media continue to determine narrative despite the recent digital convergence of media technologies The author argues that media are now each largely defined by distinctive

industrial practices that continue to preserve their identities and condition narrative production Furthermore the book demonstrates how a given medium s variability in institutional and technological contexts influences diverse approaches to storytelling By connecting US film television comic book and video game industries to their popular fictional characters and universes including Star Wars Batman Game of Thrones and Grand Theft Auto the book identifies how differences in industrial practice between media inform narrative production This book is a must read for students and scholars interested in transmedia storytelling
