Visions of Inequality Branko Milanovic, 2023-10-10 Branko Milanovic charts 200 years of the fascinating history of the discourse on inequality through portraits of six key economists from Quesnay to Kuznets In their work and lives we see how differently each conceived of inequality and how the subject prominent in their times was eclipsed during the Cold War and has become central once again **The Dynamics of Opportunity in America** Irwin Kirsch, Henry Braun, 2016-01-22

Across the country our children are beginning life from very different starting points Some have aspirations and believe they can be achieved For too many others aspirations are tempered if not dashed by the sobering realities of everyday life These different starting points place children on distinctly different trajectories of growth and development ultimately leading to vastly different adult outcomes How did we get to a place where circumstances of birth have become so determinative And what must we do within communities and across our country to better equalize opportunity for more Americans both young and old The editors of this volume contend that if as a nation we do nothing then we will continue to drift apart placing an unsustainable strain on the nation's social fabric and the character of its democracy Consequently understanding the dynamics governing the distribution and transmission of opportunity and transforming this understanding into policies and programs is critical for not only the life outcomes of individual Americans and their children but also the country as a whole The goal of Educational Testing Service's Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action and how best to do so This volume contains 14 chapters including an epilogue written by leaders from a range of fields including education economics demography and political science Collectively they not only illuminate key aspects of the problem but also offer suggestions of what policies programs and changes in practices could begin to reverse the trends we are seeing Written in an engaging style this volume constitutes an essential foundation for informed discussion and strategic analysis [Handbook of Human Mobility and Migration](#) Ettore Recchi, Mirna Safi, 2024-01-18 While mobility trajectories and experiences are key in migrants lives they are relatively neglected in the field of migration studies Using mobility as a unique angle of approach the [Handbook of Human Mobility and Migration](#) is a pioneering assessment of the theoretical concerns empirical questions and issues of governance surrounding international mobility and migration today [The World Politics of Social Investment: Volume II](#) Julian L. Garritzmann, Silja Häusermann, Bruno Palier, 2022 The World Politics of Social Investment consists of two companion volumes The World Politics of Social Investment Volume I Welfare States in the Knowledge Economy Volume I introduces social investment and develops a theory on the political and socio economic conditions for the development of social investment policies around the globe studies the impact of the main explanatory factors on the empirical variety of social investment reforms and proposes a new typology of different welfare reform strategies The world Politics of Social Investment Volume II The Politics of Varying Social Investment Strategies Volume II traces the development of social

investment reforms across the regions of Nordic Continental and Southern Europe Control and Eastern Europe North and Latin America and North East Asia Book jacket *Curriculum, Schooling and Applied Research* Jennifer Donovan, Karen Trimmer, Nicholas Flegg, 2020-10-15 This book explores how teachers can navigate the complex process of managing change within the classroom The chapters highlight the new challenges that have arisen with the emergence and introduction of educational technology as teachers find themselves having to be responsive to the needs and demands of multiple stakeholders Traversing a range of conceptual disciplinary and methodological boundaries the editors and contributors investigate the tensions that impinge on research based change and how to integrate directed changes into their education system and classroom Subsequently this volume argues that posing these questions leads to increased understanding of the possible long term effects of educational change and how teachers can know whether their solutions are effective

Amplifying the Curriculum Aída Walqui, George C. Bunch, Peggy Mueller, 2025 Expanded and revised to include four entirely new chapters this thoroughly updated edition presents a model for how educators can design high quality challenging and supportive learning opportunities for multilingual learners Starting with the premise that conceptual analytic and language practices develop simultaneously as students engage in disciplinary learning the authors argue for instruction that amplifies rather than simplifies expectations concepts texts and learning tasks They offer clear guidance for designing well supported lessons with examples that demonstrate the approach in elementary and secondary classrooms across various subject areas math science language arts and social studies and contexts including newcomer classrooms and a new chapter written in Spanish on instruction in students home languages This popular resource guides teachers through the coherent design of tasks lessons and units that invite all students to engage in productive meaningful dialogic and intellectually engaging activity The book concludes with a discussion of where teachers might begin and how teacher educators professional development providers and educational leaders can support them in these efforts Book Features Provides discipline specific examples that are fully unpacked to guide teachers in creating ambitious and supportive learning tasks lessons and units of study Supports teachers in their own instructional design by providing guiding tenets a framework for designing lessons and multiple examples in different subject areas Offers a compelling argument supported with examples and guidelines that highlights the centrality of interactions in the development of student academic autonomy Provides practical guidance grounded in sociocultural ecological theory applied linguistics and theories about effective learning of disciplinary practices Includes real life lessons that have been successfully implemented in classrooms with multilingual learners at all levels of language proficiency The second edition of this fantastic resource for teachers of ELL classified students and other multilingual learners extends the authors original framework of effective ways to amplify highly engaging academic instruction across grade levels content areas and home languages Wayne E Wright associate dean for research graduate programs and faculty development Purdue University College of Education *A Sense of Inequality*

Wendy Bottero,2019-11-12 We have a detailed picture of how inequality impacts people s lives but a much weaker sense of how people perceive interpret and understand issues of inequality What shapes people s everyday understandings of inequality How are understandings of inequality located in everyday concerns moral values and principles of justice This book considers what provokes everyday views or framings of inequality It examines how different approaches can help us understand this process drawing on a range of literatures including social attitudes and perceptions research class identities and neoliberalism theories of the psychosocial affect and the abject social constructionism social movements research and pragmatism The book examines how troubling social situations come to be regarded as inequalities explores how they come to be understood as class gender racial or other kinds of inequality and considers how such inequalities come to be seen as susceptible to intervention and change

Refusing Death Nadia Y. Kim,2021-06-01 The industrial port belt of Los Angeles is home to eleven of the top twenty oil refineries in California the largest ports in the country and those racist monuments we call freeways In this uncelebrated corner of La La Land through which most of America s goods transit pollution is literally killing the residents In response a grassroots movement for environmental justice has grown predominated by Asian and undocumented Latin immigrant women who are transforming our political landscape yet we know very little about these change makers In *Refusing Death* Nadia Y Kim tells their stories finding that the women are influential because of their ability to remap politics community and citizenship in the face of the country s nativist racism and system of class injustice defined not just by disproportionate environmental pollution but also by neglected schools surveillance and deportation and political marginalization The women are highly conscious of how these harms are an assault on their bodies and emotions and of their resulting reliance on a state they prefer to avoid and ignore In spite of such challenges and contradictions however they have developed creative unconventional and loving ways to support and protect one another They challenge the state s betrayal demand respect and ultimately refuse death

Structural Racism Stephen Menendian,2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic

prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and researchers alike The Legacy of Charles W. Mills and The Racial Contract in Educational Justice Cheryl E. Matias, 2024-11-25 Race is everywhere and pretending not to see it only does more damage than good This book delves into the work of Charles Mills and how his underlying philosophies of race still play out in today's economic educational political and sociological arena Charles Mills left a legacy of philosophical racial analyses needed to better understand race racism whiteness and white supremacy worldwide From the Racial Contract to global issues of colonial whiteness and epistemological racial ignorance Mills theories still resonate in the research that race scholars conduct today Needless to say despite his passing Charles work lives on To honour Mills scholarship this book draws on interdisciplinary studies e.g. sociology political science Black studies and education to excavate the racial landscape of the U.S. post Trump Anti CRT bans BLM and global racial reckonings Within this volume prominent scholars of race worldwide and from a variety of disciplines discuss Mills theories as applied to contemporary discourses of race whilst also offering very personal vignettes that best illuminate who Charles was to us all Essentially the man behind the theories Filled with both deep theoretical analyses and personal stories of Charles this book will liven the spirits hearts and hope for racial justice and those who work endlessly towards it This book is a key resource for scholars researchers and practitioners in the fields of education sociology political science racial and ethnic studies development studies and philosophy It was originally published as a special issue of the journal *Race Ethnicity and Education*

Poverty and Power Edward Royce, 2022-06-09 Poverty is a serious problem in the United States more so than commonly imagined and more so than in other industrialized nations Most Americans adhere to an individualistic perspective they believe poverty is largely the result of people being deficient in intelligence determination education and other personal traits *Poverty and Power* Fourth Edition challenges this viewpoint arguing that poverty arises from the workings of four key structural systems the economic the political the cultural and the social and ten obstacles to economic justice including unaffordable housing inaccessible health care and racial and gender discrimination The author argues that a renewed war on poverty can be successful but only through a popular movement to bring about significant change in the workings of American economic political and cultural institutions New to this Edition Enhanced conversation on why the cultural theory of poverty has such a strong appeal to the American public develops students critical thinking skills Chapter 3 New segment on the influence of job seekers physical appearance on hiring decisions showing that success is not simply a matter of education skills and training Chapter 4 New data on the job availability problem explains in detail why the monthly headline unemployment number is misleading and new content on the 2021 upsurge of quits on the part of American workers portrays efforts on the part of ordinary people to improve their lives Chapter 5 New content on how corporations have become increasingly assertive political players explores the dramatic increase in corporate lobbying efforts the rise of billionaire political activists and the

creation of a powerful conservative political infrastructure in the United States Chapter 6 Greater attention to racially segregated and resource deprived Black communities covers the extraordinary hardships experienced by the residents of these areas while a new section on the geographical isolation of the affluent discusses how isolation affects wealthy people's beliefs and perceptions about poverty and what policies they deem acceptable Chapter 8 Global Perspectives on the Difficulties and Opportunities Faced by Migrant and Refugee Students in Higher Education Saeed, Sameerah

Tawfeeq,Zhang, Min,2023-06-12 Higher education has been a source of opportunity and achievement for migrants and refugees around the world It has provided them with the tools and knowledge to pursue careers and build lives in their new communities but it has also made them targets for discrimination Colleges and universities are often ill equipped to address the unique educational needs of their diverse student populations and many times the very institution that was meant to be a safe haven for them becomes their greatest barrier to success Today we are witnessing a crisis of higher education for migrants and refugees Global Perspectives on the Difficulties and Opportunities Faced by Migrant and Refugee Students in Higher Education focuses on the formal and informal educational opportunities that are available to migrant students as well as the barriers that prevent them from fully accessing these opportunities The book also discusses how the experiences of migrant and refugee students in higher education have evolved and the impact that this evolution has had on their educational experiences Finally the book considers the ways in which higher education institutions have responded to the educational needs of migrant and refugee students and the role that the education industry has played in this response both formally and informally Covering key topics such as immigration educational needs and displaced students this premier reference source is ideal for administrators policymakers scholars researchers academicians practitioners instructors and students **The U.S. Labor Market** Michael R. Strain,2016-10-07 This volume explores nine major questions regarding the labor market on which respected economists disagree The purpose of the volume is to elevate the public debate about labor market policy questions by exposing the public to this range of reasonable viewpoints

Interdisciplinary Perspectives on the New Immigration: The new immigrant in American society Marcelo M. Suárez-Orozco,Carola Suárez-Orozco,Desirée Qin-Hilliard,2001 This six volume set focuses on Latin American Caribbean and Asian immigration which accounts for nearly 80 percent of all new immigration to the United States The volumes contain the essential scholarship of the last decade and present key contributions reflecting the major theoretical empirical and policy debates about the new immigration The material addresses vital issues of race gender and socioeconomic status as they intersect with the contemporary immigration experience Organized by theme each volume stands as an independent contribution to immigration studies with seminal journal articles and book chapters from hard to find sources comprising the most important literature on the subject The individual volumes include a brief preface presenting the major themes that emerge in the materials and a bibliography of further recommended readings In its coverage of the most influential scholarship on the

social economic educational and civil rights issues revolving around new immigration this collection provides an invaluable resource for students and researchers in a wide range of fields including contemporary American history public policy education sociology political science demographics immigration law ESL linguistics and more **World Development**

Report 2024 World Bank,2024-08-01 Middle income countries are in a race against time Many of them have done well since the 1990s to escape low income levels and eradicate extreme poverty leading to the perception that the last three decades have been great for development But the ambition of the more than 100 economies with incomes per capita between US 1 100 and US 14 000 is to reach high income status within the next generation When assessed against this goal their record is discouraging Since the 1970s income per capita in the median middle income country has stagnated at less than a tenth of the US level With aging populations growing protectionism and escalating pressures to speed up the energy transition today s middle income economies face ever more daunting odds To become advanced economies despite the growing headwinds they will have to make miracles Drawing on the development experience and advances in economic analysis since the 1950s World Development Report 2024 identifies pathways for developing economies to avoid the middle income trap It points to the need for not one but two transitions for those at the middle income level the first from investment to infusion and the second from infusion to innovation Governments in lower middle income countries must drop the habit of repeating the same investment driven strategies and work instead to infuse modern technologies and successful business processes from around the world into their economies This requires reshaping large swaths of those economies into globally competitive suppliers of goods and services Upper middle income countries that have mastered infusion can accelerate the shift to innovation not just borrowing ideas from the global frontiers of technology but also beginning to push the frontiers outward This requires restructuring enterprise work and energy use once again with an even greater emphasis on economic freedom social mobility and political contestability Neither transition is automatic The handful of economies that made speedy transitions from middle to high income status have encouraged enterprise by disciplining powerful incumbents developed talent by rewarding merit and capitalized on crises to alter policies and institutions that no longer suit the purposes they were once designed to serve Today s middle income countries will have to do the same
