necessary to build the path from Computer and Systems Sciences to practical developments in Science and Engineering The
University of Linz organized the first CAST workshop in April 1988 which demonstrated the acceptance of the concepts by
the scientific and technical community Next the University of Las Palmas de Gran Canaria joined the University of Linz to
organize the first international meeting on CAST Las Palmas February 1989 under the name EUROCAST 89 This was a very

The Civilizing Machine Michael Matthews, 2014-01-01 In late nineteenth century Mexico the Mexican populace was fascinated with the country's booming railroad network Newspapers and periodicals were filled with art poetry literature and social commentaries exploring the symbolic power of the railroad As a symbol of economic political and industrial modernization the locomotive served to demarcate a nation's status in the world However the dangers of locomotive travel complicated by the fact that Mexico's railroads were foreign owned and operated meant that the railroad could also symbolize disorder death and foreign domination In *The Civilizing Machine* Michael Matthews explores the ideological and cultural milieu that shaped the Mexican people's understanding of technology Intrinsically tied to the Porfiriato the thirty five year dictatorship of Gen Porfirio Díaz the booming railroad network represented material progress in a country seeking its place in the modern world Matthews discloses how the railroad's development represented the crowning achievement of the regime and the material incarnation of its mantra order and progress The Porfirian administration evoked the railroad in legitimizing and justifying its own reign while political opponents employed the same rhetorical themes embodied by the railroads to challenge the manner in which that regime achieved economic development and modernization As Matthews illustrates the multiple symbols of the locomotive reflected deepening social divisions and foreshadowed the conflicts that eventually brought about the Mexican Revolution
