Bottomless Pit Book 2 S N Strutt (Stephen), 2022-12-14 OUT OF THE BOTTOMLESS PIT II is a sequel to my first book OUT OF THE BOTTOMLESS PIT I about the paranormal and the supernatural I am sure that you have already noticed the vicious dragon on the front cover coming out of the Bottomless Pit along with locusts with scorpion tails and ferocious giants coming out of the Pit and attacking people taken from the Book of Revelation chapter 9 What will a transhuman technology do to our future Is it wise to create hybrids Could some of our tinkering in dark science end up coming to haunt mankind I have personally met the Men in Black many years ago and had many strange paranormal experiences in seeing UFO's on five different occasions Some of the experiences were not pleasant What are the Ley lines Why does science pretend to know so much when in fact they know very little because they deny so much Why Because they leave out the supernatural and the fact there are many other dimensions The Author *The 4D Spiral Spacetimes Toryx & Helyx - Prime Elements of the*

Multiverse Vladimir Ginzburg, 2018-05-25 This book describes abstract and applied mathematics of the unique properties of 4D spiral spacetimes called toryx and helyx There is a good reason for studying the mathematics of these two spacetimes Their unique properties provide them with a capability to be the prime elements of nature In that capacity their potential role in nature would be comparable with a role of the DNA double helices discovered by James Watson and Francis Crick in 1953 The DNA double helices contain genetic codes defining the properties of both organic entities and living organisms whereas both toryx and helyx contain generic codes defining the properties of matter and radiation entities of the Universe Also similar are the locations of these codes The genetic codes of DNA are located inside of cells of all organic entities and living organisms whereas the generic codes of toryces and helyces reside inside of all elementary matter and radiation particles the building blocks of the Universe *High-Field Electrodynamics* Frederic V.
