The Failure Free Reading Methodology: New Hope for Non-Readers Joseph Lockavitch, 2008-02 8 Million students in grades 4 12 cannot comprehend grade level reading material 440 Thousand students sitting in American classrooms K 12 have a total reading vocabulary of less than fifty words 3 Thousand students drop out of school each day 40 Percent of African American and Latino students will not graduate on time or with a regular high school diploma 25 Times the likelihood that non readers and high school students testing below the twentieth percentile will drop out of school Every day students across the country are being labeled and put into special programs The gap between those students and their peers reading at grade level simply continues to grow until the gap seems too large to overcome Often these students begin acting out in class because they have learned that it is better to go one on one with the principal versus being embarrassed and frustrated in front of their peers It is not the fault of the student teacher or parent We must stop looking for the reason to justify the failure and find a way to overcome it Simply labeling students Dyslexic Learning Disabled and Autistic will not offer them a reading solution These students do not need remediation they need an accelerated compensatory approach to mastering language and reading skills
