Optimising Business Performance with Standard Software

Systems Heinz-Dieter Knöll,Lukas W. H. Kühl,Roland W. A. Kühl,Robert Moreton,2013-12-01 Preface In recent years Standard Software has evolved from a tool for supporting commercial administrative activities e g financial ac counting to integrated systems that cover entire business proc esses in companies The rapid development of these systems an increasing number of implementations and the suppliers an nouncements concerning the functional extension of their sys tems lead us to expect a further market penetration of Standard Software SAP s Industrial Solutions for instance which are of fered for the key processes of entire lines of business demon strate the impressive success of Standard Software Systems The widespread implementation of commercial Standard Soft ware has reqUired considerable investments by industrial and service companies Now it is time to verify if the planned gains and advantages of these systems have actually been realised i e one has to ask whether the systems payoff as originally ex pected It has to be kept in mind that the vendors have promised far reaching optimisation of their clients business processes by means of the so called best practice reference processes implied

by their systems The advantages of these best practices should have been incorporated in the processes of the respective companies On closer inspection one can see that the claimed advantages of the systems capabilities in terms of optimised processes have not been realised in many of the current implementations Studies and interviews undertaken with applying companies as part of the research for this book confirm this finding
