## **A Sense Of Place Houses On Marthas Vineyard And Cape Cod:**

*A Sense of Place* Mark A. Hutker, 2015-05-26 Thirteen exquisite houses create a portrait of life in one of America's most exclusive coastal destinations along the beaches of Martha's Vineyard and Cape Cod. Hutker Architects, led by founding principal Mark A. Hutker, has designed more than three hundred houses along the New England shore. A member of the close community on Martha's Vineyard since his arrival in 1985, Hutker has become an expert at interpreting the ideal lifestyles of his clients within the respected traditions and restrictive codes of the beautiful but fragile environment. In their design and construction, these houses honor the vernacular traditions of craft and indigenous materials, are deeply respectful of the cherished landscape, and demonstrate a lively range of solutions to building on the bluffs and dunes that line the shores of the Vineyard and Cape Cod. A working organic farm fulfills a family's dream of simpler values; a luxurious renovation saves the best of an antique shingle cottage while transforming it for contemporary family life; and a raised structure clad in naturally weathered boards combines the legacy of midcentury regional modern architecture with Cape Cod's maritime tradition. The firm is committed to the principle "Build once well," looking to the historic architecture of the region and the inherited experience of its carpenters and craftspeople as inspiration for contemporary design. The result is an architecture that is at once adaptable and livable yet enduring, efficient, inevitable, and appropriate. The houses sit lightly on the land, deferring to their surroundings, often built as a series of modest pavilions linked by passages or grouped to enclose an outdoor space. Creative design solutions, a light-filled gallery running the full length of a house, a continuous wall of sliding glass doors, make houses both open to views but protective in a storm. Specially commissioned photography captures the craftsmanship and the settings of the houses, from dramatic bluffs overlooking the sea to secluded coves and rolling meadows filled with wildflowers, creating a unique portrait of Cape Cod and Martha's Vineyard.

*Be Our Guest* William Terry, 2022-10-24 Adopting a geographic lens to examine the employment of guestworkers in the United States, *Be Our Guest* offers readers the most comprehensive analysis of guestwork in tourism that has been produced to date. In weaving together the constellation of political and economic factors that exist across multiple scales, the case is made for how and why so many tourism-dependent areas of the United States have developed a dependency on temporary foreign workforces. Taking a holistic approach, special emphasis is placed on the economic histories of these areas and shifting patterns of employment seasonality, gentrification, and related housing shortages. Throughout, the voices of stakeholders involved in every aspect of guestwork are included: human resources managers battling labor shortages, town planners mitigating workforce housing shortages, and attorneys and advocates helping to directly assist migrant workers and affect policy changes. These perspectives are coupled with detailed analysis of state policies regarding guestworker visa programs and labor market stress to illustrate a vivid picture of the precarious lives of the migrant laborers who arrive in the United States. *Be Our Guest* serves to specifically address a lacuna in critical tourism studies and the growing concern among practitioners over workforce quality and supply.

Nevertheless it will benefit everyone with an interest in issues of labor migration precarity housing policy and immigration reform
