U-Boats at War in 100 Objects, 1939-1945 Gordon Williamson, 2019-10-30 The only thing that ever really frightened me during the war was the U boat peril wrote Winston Churchill in his history of the Second World War I was even more anxious about this battle than I had been about the glorious air fight called the Battle of Britain In reality the Kriegsmarine had been woefully unprepared for the war into which it was thrown The Command in Chief of submarines Karl D nitz himself a verteran U boat captain from the First World War felt that he could bring Britain to its knees with a fleet of 300 U Boats But when war broke out he had just twenty four available for operational use Despite this the U Boat arm scored some incredible successes in the early part of the war raising the status of the submarine commanders and crews to that of national heroes in the eyes of the German people The Grey Wolves had become super stars Small wonder then that the U Boat war has fascinated students of military history ever since This book using a carefully selected range of both wartime images and colour images of surviving U boat memorabilia from private collections describes 100 iconic elements of the U Boat service and its campaigns The array of objects include important individuals and the major U Boat types through to the uniforms and insignias the men wore The weapons equipment and technology used are explored as are the conditions in which the U boat crews served from cooking facilities and general hygiene down to the crude toilet facilities Importantly the enemy that they faced is also covered examining the ship borne

and airborne anti submarine weaponry utilised against the U boats The U Boats began the war though small in number more than a match for the Allies and created carnage amongst merchant shipping as well as sinking several major warships The pace of technological development however failed to match that of Allied anti submarine warfare weaponry and the U Bootwaffe was ultimately doomed to defeat but not before at one point coming close to bringing Britain to its knees
