

# Ransomes Bobcat T-17D

A premium diesel, four wheel, up-front cutting, commercial riding mower. For maintaining turf in parks, schools/universities, golf courses, industrial parks, cemeteries and for lawn service contractors.

**DEPENDABILITY** Capable of working a full eight hour day, five days a week, in any growing season.

**DURABILITY** Built to tackle the toughest turf conditions with rugged diesel power.

**MANEUVERABILITY** 11" to zero turning circle with instant forward and reverse, to get into and out of those tight areas quickly and with less effort.

**SERVICEABILITY** Direct in-line drive, only one belt, no idler pulleys, extended lubrication cycles. All of these help to reduce nonproductive time spent on maintenance.

**PRODUCTIVITY** Operator comfort producing less fatigue combined with a maximum output of 27 acres per day - more grass cut.

The heart of the T-17D is the new generation Mitsubishi L3A diesel engine. This 3 cylinder engine is smoother, quieter and more responsive than 2 cylinder engines.

A front mounted cooling air screen is used to keep debris out of the radiator. The deeply corrugated screen provides more surface area than flat types and is located where the air is cleanest. Being located directly behind the operator, it can be cleaned from the operator position. It also keeps the operator cooler since the cooler air enters here and exits out the back.

A low effort, single pedal hydrostatic control is provided for convenient operator use. No need for expensive troublesome cruise control.

Four anti-scalp rollers provide excellent protection from scalping. They do not mark turf as skids do.

Simple cutter deck drive uses only one drive belt. No idler pulleys are used which can fail and need replacement.

New smooth tread castor wheel tire does not mark fine turf.
