Politics of Party Leadership William P. Cross, *The Politics of Party Leadership* William Paul Cross, Jean-Benoît Pilet, 2015 This book examines the ways in which political parties choose their leaders and the implications of the different choices they make *The Politics of Party Leadership* William Cross, Jean-Benoît Pilet, 2015-11-26 Making use of a unique data set that includes more than 1000 leadership elections from over 100 parties in 14 countries over an almost 50 year period this volume provides the first comprehensive comparative examination of how parties choose their leaders and the impact of the different decisions they make in this regard Among the issues examined are how leaders are chosen the factors that result in parties changing their selection rules how the rules affect the competitiveness of leadership elections the types of leaders chosen the impact of leadership transition on electoral outcomes the factors affecting the length of leadership tenures and how leadership tenures come to an end This volume is situated in the literature on intra party decision making and party organizational reform and makes unique and important contributions to our understanding of these areas The analysis includes parties in Australia Austria Belgium Canada Denmark Germany Hungary Israel Italy Portugal Romania Spain Norway and the United Kingdom Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu *The Personalization of Democratic Politics and the Challenge for Political Parties* William P Cross, Richard S Katz, Scott Pruyssers, 2018-09-16 The implications of the personalization of politics are necessarily widespread and can be found across many different aspects of contemporary democracies Personalization should influence the way campaigns are waged how voters determine their preferences how officials e.g. MPs and institutions e.g. legislatures and governments function and the place and operations of political parties in democratic life However in an effort to quantify the precise degree of personalization over time and to uncover the various causes of personalization the existing literature has paid little attention to many of the important questions regarding the consequences of personalization While the chapters throughout this volume certainly document the extent of personalization they also seek to address some fundamental questions about the nature of personalization how it is manifested and its consequences for political parties governance representation and the state of democracy more generally Indeed one of the primary objectives of this volume is to speak to a very broad audience about the implications of personalization Those interested in election campaigns voting gender governance legislative behaviour and political parties will all find something of value in the contributions that follow *From Party Politics to Personalized Politics?* Gidon Rahat, Ofer Kenig, 2018 This volume examines two major developments in contemporary democratic politics the change in party society linkage and political personalization and their relation to each other **Political Leadership, Parties and Citizens** Jean

Blondel, Jean-Louis Thiebault, 2009-12-04 Explores the increasing importance of personality in leadership It focuses on the relationship and psychological dimension between citizens and political leaders with case studies on Britain and Northern Ireland France Italy Poland Japan and Thailand

Party Reform Anika Gauja, 2017 This book explains why and how political parties in several advanced democracies are undertaking high profile organizational reforms

Organizing Political Parties Thomas Poguntke, Paul D. Webb, Susan E. Scarrow, 2017 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universite libre de Bruxelles Ferdinand Muller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

How Europeans View and Evaluate Democracy Mónica Ferrín, Hanspeter Kriesi, 2016-03-04 Based on a new data set covering 29 European and neighboring countries this volume shows how Europeans view and evaluate democracy what are their conceptions of democracy how do they assess the quality of democracy in their own country and to what extent do they consider their country's democracy as legitimate The study shows that Europeans share a common view of liberal democracy which is complemented by elements of social and direct democracy which go beyond the basic liberal model The level of their demands in terms of democracy varies however considerably across Europe and is related to their assessment of democracy the worse the quality of democracy in a given country the higher the respective demands on democracy The analysis of the determinants of democratic views and evaluations shows that they depend on the political and economic but less on the

cultural context conditions Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The Comparative Politics series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Party Leaders and their Selection Rules in Western Europe Bruno Marino, 2021-09-23 This book analyses the determinants behind the openings in party leader selection rules leaders selectorate in 10 Western European countries and more than 55 parties between the mid 1980s and the mid 2010s Presenting a novel and revealing theoretical and empirical framework it tackles the impact of party change and the personalisation of politics specifically using data coming from the first expert survey on the personalisation of politics in Western Europe the PoPES A quantitative analysis is paired with more in depth explorations of two Italian parties the Italian Communist Party Democratic Party of the Left the Northern League and the missed opening of their leader selectorate This book highlights the critical importance of studying party leader selection rules against the

backdrop of allegedly declining parties and rising party leaders and concludes by placing its findings in a broader discussion about the future of Western European party leaders This book will be of key interest to scholars and students of political parties and party systems leadership political elites elections democracy and more widely of Western European politics and comparative politics Citizen Support for Democratic and Autocratic Regimes Marlene Mauk, 2020 This book examines citizens attitudes towards the political system in which they live Its focus is the comparison of such attitudes between citizens living in democracies and citizens living in autocracies *Multi-level Electoral Politics* Sona Nadenichek Golder, Ignacio Lago, André Blais, Elisabeth Gidengil, Thomas Gschwend, 2017 This volume re examines how the incentives created by specific electoral institutions affect the behaviour of voters and party elites It provides the first systematic analysis of multi level politics at three distinct levels regional national and European Parliament elections Inequality After the Transition Ekrem Karakoç, 2018 This book discusses the origins and trajectories of political parties welfare policies and income inequality and how the former two affects the latter **Nordic Party Members** Marie Demker, Knut Heidar, Karina Kosiara-Pedersen, 2019-12-12 Political parties provide continuity at the elite level and among the mass electorate in times when populist forces threaten the stability of many western democracies The parties however have experienced turbulent times with declining memberships among the established parties volatile electorates and the emergence of new parties This edited collection aims to make an analytical contribution to what party democracy means how to study it and add to our knowledge of who the party members are what they do and how influential they are in policy making processes Clearly elections provide linkage at regular intervals Does party membership even after membership decline provide a supplementary representative linkage that supports democracy and stability in post cleavage societies Nordic party systems have kept central elements of their old five party systems with mostly large social democratic parties and a variable geometry of the conservative liberal agrarian and left socialist forces They have experienced the electoral rise of new parties and in particular the increasing strength of vote catching anti establishment parties in most countries nurtured by anti immigration sentiments In contrast to much recent scholarship this book investigates the stable element in Nordic mass politics namely the parties as membership organisations How many members Why do they join parties How much do they participate Do they experience political influence The overall question is to what extent the party organizations which have been heavily statified by public subsidies keep up linkage to civil society through their membership **With Ballots and Bullets** Nathan P. Kalmoe, 2020-07-30 Durable acrimonious partisanship profoundly shapes contemporary American politics yet scholars and analysts have been slow to consider the latent capacity of party leaders to mobilize violence *Political Parties and Euroscepticism* L. Topaloff, 2012-07-06 An exploration of what drives party based Euroscepticism and why some parties are Eurosceptic This book looks at what makes mainstream opposition parties careful not to appear Eurosceptic and asks whether Euroscepticism is an aberration of politics an extreme populist ideology or just politics as usual **Mass-Elite**

Representation Gap in Old and New Democracies Jaemin Shim, 2024-08-06 How can we explain policy preference mismatch between voters and their representatives

Faces on the Ballot Alan Renwick, Jean-Benoît Pilet, 2016 One of the key shifts in contemporary politics is the trend towards greater personalization Collective actors such as political parties are losing relevance Citizens are slowly dealigning from these actors and individual politicians are therefore growing in importance in elections in government within parties and in media reporting of politics A crucial question concerns how this new pattern could be restructuring politics over the long run notably whether the personalization of politics is changing the institutional architecture of contemporary democracies The authors show that the trend towards personalization is indeed changing core democratic institutions Studying the evolution of electoral systems in thirty one European democracies since 1945 they demonstrate that since the 1990s there has been a shift towards more personalized electoral systems Electoral systems in most European countries now allow voters to express preferences for candidates not just for political parties And the weight of these voters preferences in the allocation of seats has been increased in numerous countries They examine the factors that appear to be driving this evolution finding that the personalization of electoral systems is associated with the growing gap between citizens and politics Politicians and legislators appear to perceive the personalization of electoral systems as a way to address the democratic malaise and to restore trust in politics by reducing the role of political parties in elections The book also shows however that whether these reforms have had any success in achieving their aims is far less clear
