Book And Praxiology Reasons Action Piotr Makowski

Tadeusz Kotarbiński

Book And Praxiology Reasons Action Piotr Makowski:

Praxiology and the Reasons for Action Piotr Makowski, 2017-07-05 This volume explores two traditions in practical philosophy action theory which concerns the nature of motivation for human action and praxiology the study of human action By bringing different perspectives together the volume strives to contribute to the international debate on theories of reasons for action as a philosophy of action The volume consists of three main parts The first part Reasons for Action bridges the gap between reasons for action theories and praxiology The second part of the volume titled Theories of Action explores philosophical approaches to action Finally in the third part Applications the contributors show several ways of applying praxiological ways of thinking and acting to the problems of reflection assessment solving action incompleteness and knowledge management The ultimate goal of this volume is to broaden the scientific view of action to establish a perspective on action that is permeated by moral theories on the one hand and accounts focused on efficiency and economy of action on the other hand This work is the newest volume in Transaction s Praxiology series **Tadeusz Kotarbiński's Action**

Theory Piotr Tomasz Makowski, 2016-11-30 The book introduces Tadeusz Kotarbiński s philosophy of action into the mainstream of contemporary action theoretical debates Piotr Makowski shows that Kotarbiński Alfred Tarski s teacher and one of the most important philosophers of the renowned Lvov Warsaw school proposed a groundbreaking original and in at least a few respects still fresh perspective in action theorizing The book examines and develops Kotarbiński s ideas in the context of the most recent discussions in the philosophy of action The main idea behind Kotarbiński s action theory and thus behind this book is the significance of the philosophical investigations of the general conditions of effectiveness efficiency and economy of intentional actions Makowski presents and reinterprets Kotarbiński s views on these dimensions of our activities and sheds new light on the most important areas of action theory **Ethics and Governance** Patrick K.

Kalifungwa, 2025-08-12 As the title suggests The Right and the Good is about rightness goodness and their relation to each other Ross W D 2002 Rightness is a property of acts while goodness concerns various kinds of things According to Ross there are certain features that both have in common they are real properties they are indefinable pluralistic and knowable through intuition Skelton Anthony 2012 Central to rightness are prima facie duties for example the duty to keep one s promises or to refrain from harming others Simpson David L William David Ross 2021 of special interest for understanding goodness is intrinsic value what is good in itself Ross ascribes intrinsic value to pleasure knowledge virtue and justice Skelton Anthony 2012 It is easy to confuse rightness and goodness in the case of moral goodness An act is right if it conforms to the agent s absolute duty Ross W D 2002 Doing the act for the appropriate motive is not important for rightness but it is central for moral goodness or virtue Burgh W G de 193 Ross uses these considerations to point out the flaws in other ethical theories for example in G E Moore s ideal utilitarianism or in Immanuel Kant s deontology Ross defends a realist position about morality the moral order expressed in prima facie duties is just as real as the spatial or numerical structure expressed in the axioms of

geometry or arithmetic Ross W D 2002 Furthermore the terms right and good are indefinable Skelton Anthony 2012 This means that various naturalistic theories trying to define good in terms of desire or right in terms of producing the most pleasure fail

Desire Timo Airaksinen, Wojciech W. Gasparski, 2018-02-06 Desire is a rich term meaning wish and want willingness and relish appetite and lust This volume is an effort to analyse the concept of desire and its different practical contexts from a morally philosophic point of view By analysing multiple definitions and studying underlying motivations the authors offer a variety of explanations and interpretations The volume consists of three main parts The first part Desire and Practice examines desire as a mental state that seeks personal satisfaction The second part of the volume Desire and Moral Life explores social cultural and literary facets of desire Finally in the third part Business Ethics and Other Contexts the authors apply PR axiological principles to the business world examining the conflict between frugality and consumerist ideology the role of intuition in decision making and the need for design education as the basis of effective planning The contributors to this the newest volume in Transaction s Praxeology series seek to explore desire in PR axiological terms with an eye toward the three E s of praxeology ethics effectiveness and efficiency In doing so they demonstrate that desire is central for practical activity in general and work in particular

Reflections on Ethics and Responsibility Zachary J. Goldberg, 2017-02-06 The original essays in this book address the influential writings of Peter A French on the nature of responsibility ethics and moral practices French s contributions to a wide spectrum of philosophical discussions have made him a dominant figure in the fields of normative ethics meta ethics applied ethics as well as legal and political philosophy Many of French s deepest insights come from identifying and exploring the scope and nature of moral responsibility and human agency as they appear in actual events real social and cultural practices as well as in literature and film This immediacy renders French s scholarship vital and accessible to a wide variety of audiences The authors recognized for their own contributions to the understanding of the nature of morality and moral practices offer new and unique positions while exploring expanding and responding to those of French The final chapter is written by French in which he provides both new philosophical insight as well as some reflection on his own work and its influence This book will appeal to philosophers as well as advanced students and researchers in the humanities social sciences law and political science

Praxiology and the Reasons for Action Piotr Makowski, 2017-07-05 This volume explores two traditions in practical philosophy action theory which concerns the nature of motivation for human action and praxiology the study of human action By bringing different perspectives together the volume strives to contribute to the international debate on theories of reasons for action as a philosophy of action The volume consists of three main parts The first part Reasons for Action bridges the gap between reasons for action theories and praxiology The second part of the volume titled Theories of Action explores philosophical approaches to action Finally in the third part Applications the contributors show several ways of applying praxiological ways of thinking and acting to the problems of reflection assessment solving action incompleteness and knowledge management

The ultimate goal of this volume is to broaden the scientific view of action to establish a perspective on action that is permeated by moral theories on the one hand and accounts focused on efficiency and economy of action on the other hand. This work is the newest volume in Transaction's Praxiology series. **Praxiological Essays** Wojciech W. Gasparski, 2017-09-26. The 25th volume in the series Praxiology: The International Annual of Practical Philosophy and Methodology brings a praxiological perspective to current issues facing our society. In sixteen brand new essays a team of international scholars expands praxiology beyond the borders of its historically philosophical application and uses it to address real world problems in a variety of fields. The volume outlines new approaches and reflections on traditional praxiological method and then applies these developments as tools in fields as diverse as ethics, psychology, sociology, economics, management and entrepreneurship. Grounded in the tradition of the Polish praxiologist Tadeusz Kotarbiński 1886-1981, the 25th volume entitled *Praxiological Essays: Texts and Contexts* highlights the rich mosaic of issues perceived in the practice of human action and carries a tradition of Praxiological inquiry forward into our contemporary philosophy, methodology and social sciences. *Praxiology and the Reasons for Action* Piotr Makowski, Mateusz Bonecki, Krzysztof Nowak-Posadzy, 2016. This volume explores two traditions in practical philosophy: action theory which concerns the nature of motivation for human action and praxiology, the study of human action. By bringing different perspectives together, the volume strives to contribute to the international debate on theories of reasons for action as a philosophy of action. *Thirty Years of ProtoSociology - Three Decades Between Disciplines* Georg Peter, Reuß-Markus Krauß, 2022-03-31. The contributions to the Thirty Years Volume represented in this volume reflect the historical focus of the ProtoSociology project. Colleagues are represented who contributed to the focus. This is also true thematically as contributions on language theory, the philosophy of the mental and the sociology of contemporary societies are represented. The contributions to the Thirty Years Volume are definitely evidence that they address central research problems of ProtoSociology regardless of their particular epistemological interests. *Praxiology* Tadeusz Kotarbiński, 1965. *Praxiology. An Introduction to the Science of Efficient Action* Tadeusz Kotarbiński, 2019. *Praxiological Studies* Wojciech Gasparski, Tadeusz Pszczołowski, 1983.
