Mission Unaccomplished Alan Nadel, 2025-10-07 An analysis of how post 9 11 war movies changed from following soldiers on specific missions to chronicling war as a day to day occupation In 2003 the United

States began a war in Iraq without a mission Instead of fighting to restore peace the traditional objective of warfare servicemembers faced the grim reality that there was no goal Lacking even certainty as to who was the enemy soldiers discovered that their task was simply to survive Mission Unaccomplished explores how Hollywood grasped the experience of Iraq from the perspective of US soldiers reinventing the war film in the process Historically films such as Saving Private Ryan valorized the goals of war by chronicling missions that unambiguously contribute to the defeat of the enemy and the restoration of peace But in The Hurt Locker American Sniper Green Zone and other recent dramas soldiers just try to outlast the chaos Dramatizing the aimlessness of the war events occur in random order and soldiers have no sense of how their actions contribute to victory or peace Looking to recent WWII movies such as Dunkirk and Hacksaw Ridge which use this same cinematic vocabulary to position soldiering as merely a deadly job to be endured Alan Nadel argues that the disillusionment of Iraq has influenced cinema broadly inspiring a newly critical war film genre **Fighting Hurt** Henry Shue,2016 This volume brings together key work by the leading political philosopher Henry Shue on the issue of torture and the moral challenges surrounding the initiation and conduct of war The Hero and the Victim Gregory Brazeal,2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War **Cosmos and Republic** Wolfgang R. Heuer,2023-08-04 In 20 essays inspired by Hannah Arendt s analysis of crisis ridden modernity Wolfgang R Heuer addresses aspects of depoliticization and the loss of politics and thus of freedom The wide ranging essays are grouped in five sections When Politics Vanishes The Call of Responsibility Images and Emotions Federations and From Plurality to Cosmos They lead to the insight that the crises of our time require a common change of perspective towards ecological and political sustainability the unity of Cosmos and Republic *One Shot One Kill* Charles W. Sasser,Craig Roberts,1990-04-01 They are the lone wolves of the battlefield Tracking the enemy lying in wait for the target to appear then they shoot to kill Armed with an unerring eye infinite patience and a mastery of camouflage combat snipers stalk the enemy with only one goal In World War II Korea Vietnam and Beirut American snipers honed the art of delivering a single deadly shot from nowhere and devastating enemy morale They met the enemy on his own turf picking off officers unwary soldiers and even other snipers from extraordinary distances of up to 1 miles Now these uncommon men tell their stories of the emotions felt when a man s face came into their crosshairs and they pulled the trigger of the nerve wracking hours and days of waiting motionless for the enemy of the primal savagery of a sniper duel Often trained haphazardly in wartime and forgotten in times of peace combat snipers were officially recognized after the Vietnam War when the Marine Corps became the first military branch to start a full time sniper school One Shot One Kill is their powerful record of desperate trials and proud victories The Films of Clint Eastwood Matt Wanat,Leonard Engel,2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood s 2014 American Sniper a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the

collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

U.S. Marine Corps Scout-sniper Peter R. Senich, 1993 The advent of jungle warfare in the South Pacific in 1942 opened an entirely new chapter in the art of fieldcraft and marksmanship for the U S Marine Corps To eliminate the Japanese jungle fighter the Corps had to formulate innovative tactics even more efficient than those successfully implemented by the scouts observers and snipers of World War I The Corps set about training and fielding a new breed of combat specialist the U S Marine Corps scout sniper Now after more than two decades of research Peter Senich has written what is undoubtedly the most thorough and accurate account ever of the training equipment and combat experiences of this important facet of the history of Marine Corps sniping Contains rare combat and training photos of scout snipers in action

The CIA as Organized Crime Douglas Valentine, 2016-11-28 This book provides insight into the paradigmatic approaches evolved by CIA decades ago in Vietnam which remain operational practices today in Afghanistan El Salvador Iraq Syria Yemen and elsewhere Valentine's research into CIA activities began when CIA Director William Colby gave him free access to interview CIA officials who had been involved in various aspects of the Phoenix program in South Vietnam The CIA would rescind it making every effort to impede publication of The Phoenix Program which documented the CIA's elaborate system of population surveillance control entrapment imprisonment torture and assassination in Vietnam While researching Phoenix Valentine learned that the CIA allowed opium and heroin to flow from its secret bases in Laos to generals and politicians on its payroll in South Vietnam His investigations into this illegal activity focused on the CIA's relationship with the federal drugs agencies mandated by Congress to stop illegal drugs from entering the United States Based on interviews with senior officials Valentine wrote two subsequent books *The Strength of the Wolf* and *The Strength of the Pack* showing how the CIA infiltrated federal drug law enforcement agencies and commandeered their executive management intelligence and foreign operations staffs in order to ensure that the flow of drugs continues unimpeded to traffickers and foreign officials in its

employ Ultimately portions of his research materials would be archived at the National Security Archive Texas Tech University's Vietnam Center and John Jay College This book includes excerpts from the above titles along with updated articles and transcripts of interviews on a range of current topics with a view to shedding light on the systemic dimensions of the CIA's ongoing illegal and extra legal activities These terrorism and drug law enforcement articles and interviews illustrate how the CIA's activities impact social and political movements abroad and in the United States A common theme is the CIA's ability to deceive and propagandize the American public through its impenetrable government sanctioned shield of official secrecy and plausible deniability Though investigated by the Church Committee in 1975 CIA praxis then continues to inform CIA praxis now Valentine tracks its steady infiltration into practices targeting the last population to be subjected to the exigencies of the American empire the American people
