Learning to Divide the World John Willinsky,1998 The barbarian rules by force the cultivated conqueror teaches This maxim form the age of empire hints at the usually hidden connections between education and conquest In Learning to Divide the World John Willinsky brings these correlations to light offering a balanced humane and beautifully written account of the ways that imperialism s educational legacy continues to separate us into black and white east and west primitive and civilized

The Common Class Rick Tobin,2007-09 Few Americans would disagree that serious problems plague their country s education system But what is the real reason for this serious malady According to author and long time teacher Rick Tobin the usual suspects beleaguered teachers overcrowded classrooms lack of funds etc aren t to blame Tobin believes that critics of the educational system have totally missed the point and that educational reform is aimed in the wrong direction In his view academic failure is the direct result of a loss of faith in American democracy Current teaching objectives and the laws governing schools are failing to emphasize moral responsibility and personal accountability fundamental aspects of the ethical framework that form the basis of American democracy and American education These problems stem from what Tobin terms a prevailing egoist culture in America that largely ignores moral character building and downplays the need for individual accountability He contends there are millions of Americans who fall within nine classes of people who are largely responsible for our educational mediocrity Rick Tobin doesn t mince words in this candid expose in which he also offers solutions for remedying our educational woes
