Hollywood's Imperial Wars Armando José Prats,2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and

instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando Jos Prats explores in *Hollywood's Imperial Wars*. The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter*, *Apocalypse Now* and *Platoon*. As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period. In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II. Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers. American war movies in Prats's analysis were forever altered by the loss in Vietnam. Even movies like *American Sniper* that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events. Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts.

The Road to Dien Bien Phu Christopher Goscha, 2023-08-15 On May 7, 1954, when the bullets stopped and the air stilled in Dien Bien Phu, there was no doubt that Vietnam could fight a mighty colonial power and win After nearly a decade of war, the country that had been forged in the crucible of the Indochina War had achieved a victory unseen in any other movement for national liberation In The Road to Dien Bien Phu, historian Christopher Goscha explains the making of this extraordinary battle, telling the first comprehensive history of how Vietnam brought down the French in the Indochina War Between September 1945, when Ho Chi Minh declared modern Vietnam's birth, and May 1954, Vietnam moved from a decentralized guerrilla polity to a single-party militarized state Goscha illuminates the making of the militarized nervous system that would realize the victory at Dien Bien Phu But he is also attuned to how society mobilized behind war communism This mobilization fortified the single-party

state and would create modern Vietnam This book radically changes how we understand both the first Vietnam War and the one the Americans would fight later Shedding light on a larger arc of communist warfare and statecraft that runs from the former Soviet Union to the communist states of China and North Korea Goscha tells a global story of how Vietnam came to be
