Islamophobia in Higher Education Shafiqah Ahmadi, Darnell Cole, 2023-07-03 While Islamophobia was present in our society before 9/11 it has become more pervasive in recent years. This is evidenced by the current social and political climate, hate speech, and hate crimes directed at Muslims, and the Supreme Court's upholding of Presidential Proclamation 645 that effectively bans Muslim immigration from coming to the U.S. What does this mean for Muslim students in college and indeed for institutions of higher education as they navigate law and policy on the one hand and adhere to their mission of achieving inclusive and equitable educational environments on the other? Two thirds of Muslims in the U.S. are vexed with current policy and there has been an alarming increase in reports of bigotry and discrimination against them since the 2016 presidential elections. The fear of Islam in general and Muslims specifically not only compels non-Muslims to differentially treat Muslims but also trade some of their own civil rights and civil liberties under the guise of national security. To address these issues, institutions require a nuanced understanding of laws and policies that institutionalize Islamophobia and a greater understanding of the diverse college students that identify as Muslim. This book fills what has been a dearth of research that explores the experiences and navigation of Muslim students in colleges and universities and addresses the even less studied domain of the experiences of Muslim students who hold multiple marginalized identities such as race, ethnicity, and LGBTQ status, as well as the intersection of those identities that may create multiple burdens of oppression and discrimination. This book begins by critically engaging with how current laws and policies institutionalize Islamophobia and affect the intersectionality and diversity within the Muslim community. It includes multidisciplinary voices such as an international human rights attorney, a civil rights attorney, a criminal law attorney, student affairs practitioners, and research faculty whose work on this marginalized student population is traditionally not recognized within academic settings and brings the voices of female Muslim scholars to the fore. Each chapter includes a critical analysis of the literature, a legal analysis when appropriate, a set of recommendations for policy and practice, and discussion questions.

Imperial Benevolence Scott Laderman, 2018-08-14 This is a necessary and urgent read for anyone concerned about the United States' endless wars. Investigating multiple genres of popular culture alongside contemporary U.S. foreign policy and political economy, *Imperial Benevolence* shows that American popular culture continuously suppresses awareness of U.S. imperialism while assuming American exceptionalism and innocence. This is despite the fact that it is rarely a product of the state. Expertly coordinated essays by prominent historians and media scholars address the ways that movies and television series such as *Zero Dark Thirty*, *The Avengers*, and even *The Walking Dead*, as well as video games such as *Call of Duty: Black Ops*, have largely presented the United States as a global force for good. Popular culture with few exceptions has depicted the U.S. as a reluctant hegemon, fiercely defending human rights and protecting or expanding democracy from the barbarians determined to destroy it.

Contemporary Anti-Muslim Politics Kenneth J. Long, 2017-02-15 *Contemporary Anti-Muslim Politics*

provides a succinct but potent critique of the policies of Western nations toward Muslims particularly the aggressive foreign policies of the United States and the exclusionary domestic policies of Europe These policies have already claimed millions of Muslim lives For decades policies that rely on war exclusion and ghettoization have triggered conflict escalation The actions of groups such as the Islamic State and Boko Haram are reactions to this history Their tactics exacerbate negative stereotyping of Muslims generally and Western military strategies cause many Muslims to pursue survivalist politics that enable and strengthen such groups Anti Muslim politics in Western nations takes many forms beyond war and exclusion including racialization stereotyping sacrilegious cultural assaults mass media scapegoating and even tolerance which implies something unpalatable in need of toleration The gridlock brought by pluralism and constitutionalism both in Europe and the United States serves few people well but it has locked Muslims into an especially abusive status quo Tax Treatment of Organizations Providing Health Care Services, and Excise Taxes on Tobacco, Guns and Ammunition United States. Gutiérrez,2017-01-20 It is impossible to reproduce the state of mind of the men who waged war in 1917 and 1918 Edward Coffman wrote in The War to End All Wars In Doughboys on the Great War the voices of thousands of servicemen say otherwise The majority of soldiers from the American Expeditionary Forces returned from Europe in 1919 Where many were simply asked for basic data veterans from four states Utah Minnesota Connecticut and Virginia were given questionnaires soliciting additional information and remarks Drawing on these questionnaires completed while memories were still fresh this book presents a chorus of soldiers voices speaking directly of the expectations motivations and experiences as infantrymen on the Western Front in World War I What was it like to kill or maim German soldiers To see friends killed or maimed by the enemy To return home after experiencing such violence Again and again soldiers wrestle with questions like these putting into words what only they can tell They also reflect on why they volunteered why they fought what their training was and how ill prepared they were for what they found overseas They describe how they interacted with

the civilian populations in England and France how they saw the rewards and frustrations of occupation duty when they desperately wanted to go home and perhaps most significantly what it all added up to in the end Together their responses create a vivid and nuanced group portrait of the soldiers who fought with the American Expeditionary Forces on the battlefields of Aisne Marne Argonne Forest Belleau Wood Chateau Thierry the Marne Metz Meuse Argonne St Mihiel Sedan and Verdun during the First World War The picture that emerges is often at odds with the popular notion of the disillusioned doughboy Though hardened and harrowed by combat the veteran heard here is for the most part proud of his service service undertaken for duty honor and country In short a hundred years later the doughboy once more speaks in his own true voice
