systems Urban transport systems require considerable studies to devise and then safeguard their operational use maintenance and safety Transportation systems produce significant environmental impacts and can enhance or degrade the quality of life in urban centres Clearly the challenge of providing effective and efficient transport systems in urban settings remains an acute concern with financial political and environmental constraints limiting the ability of transport system planners and operators to deliver the high quality outcomes expected by the public Papers cover such topics as Urban Transport Planning and Management Urban Transport Strategies Public Transport Systems Environmental Aspects Economic and Social Impact Safety and Security Travel Behaviour Studies Customer Satisfaction Transportation Modelling and Simulation Infrastructure Development Intelligent and Advanced Transport Systems Transportation Integration City Logistics Resilience and Inter modal Transport Systems Mass Transport Strategies Social Impacts Freight Transport Railway Systems Transport Governance and Administration Port and City Mobility and Public Space Life Cycle Management

The Thorny Road to Success Karl Maramorosch, 2015-12-03 Karl Maramorosch may be best known for his accomplishments as a top scientist but the story of how he became such a success has never been told until now Born in Vienna in 1915 his family moved to Poland and he fled with his wife Irene to Romania in September 1939 They spent four years in Polish refugee camps and were in Soviet occupied Romania until October 1946 before coming to the United States in January 1947 on an immigration visa But they did not arrive unscathed Maramorosch's father died in the gas chamber in Belzec in 1942 and his mother also died at the camp His brother died in the Kolomyia jail on Yom Kippur in 1942 His wife's closest relatives died in Treblinka in 1942 The inseparable couple refused to let any of that stop them from forging ahead He began a scientific career that spanned more than sixty years and she became a librarian at the New York Public Library where she worked thirty years Maramorosch recalls the painful losses of the past and the brutalities of war but he also celebrates his love for his wife and life in The Thorny Road to Success

**Do You Know Who's Dead?** Paddy Duffy, 2015-11-05 Ireland A country of 13 verse long ballads outspoken lunatics strongly held trivial opinions and friendly exchanges about the day's names in the death notices A place where flattened fizzy drink is treated as a medical panacea and where celebration can be squeezed out of anything from a major sporting victory to a valiant quarter final exit From Fionn MacCumhail to the FAI Do You Know Who's Dead is a hilarious celebration of all things unmistakably Irish as it describes our distinguishing features big and small in politics music culture sport and more If you find it hard to end a phone call have ever driven several miles out of your way for slightly cheaper petrol or spend just a little too long surveying the death notices this is the book for you

Secondary Cities and Local Governance in Southern Africa Abraham R. Matamanda, James Chakwizira, Kudzai Chatiza, Verna Nel, 2024-01-16 This book is the first to consider the roles challenges and governance responses of secondary cities in southern Africa to changing circumstances Among the challenges are governance under conditions of resource scarcity managing informality the effects and responses to climate change and the changing roles of the cities within the national space economy It fills the

gap in the literature on secondary cities with original case studies drawn from South Africa Zimbabwe and Mozambique The authors are all African scholars working and living in the region with intimate knowledge of the settings they describe The book is critical as it includes such regional case studies of different secondary cities in Southern Africa but also because of its multidisciplinary it contains substantive and pertinent issues such as climate change disaster management local economic development and basic services delivery It considers diverse environments yet with similar challenges that could provide useful policy and governance proposals for other cities

Injustice at Work Francois Dubet, 2015-12-03 Though it is difficult to describe what a just world should be everyone is able to denounce injustice when he/she is a victim or a witness of it Based on a long term study of workers this new book tests and expands upon prevailing theories of justice by Rawls Nozick Taylor Walzer and other important philosophers Injustice at Work describes the way workers perceive social injustice It reveals why they so often feel unequal scorned dominated and alienated at work The book develops three principles of justice equality merit and autonomy showing how individuals combine them in singular moral and social experiences that constitute people's relation to society Dubet also shows in a liberal and globalized society why it has become more and more difficult to denounce the social causes of injustice and fight them

Last Sardana Ray Harwood, 2015-07-28 With linked hands the human circle perambulated moving to the left in the precise step sequences that had been the format through centuries of performance Last Sardana begins the story of a mother Maria Martinez and 12 year old son Pedro with modest beginnings in Rosas a Spanish Costa Brava fishing village Set in the fifties Maria was widowed by a tragic disaster at sea Together they uproot south to be under the wing of her brother in law who is developing an hotel on the Martinez family land Maria and Pedro in their separate ways become pivotal to that There Pedro is exposed to the University of Life through adolescence itself His creative talent is encouraged and exposed as are the challenges of a veritable fan club of contemporary girlfriends discovering their own emotions and playing with his Diverse characters comprising the initial hotel clientele enter his life as do a field of sunflowers and a deaf mute boy whose great artistic talents Peter discovers to take into the future Maria finds new and exciting love too

**Discombobulation** Wayne Rudolph Davidson, 2015-09-16 Wayne Rudolph Davidson delves deeper into his family history in this second book of his When Clans Collide trilogy Exploring his own personal branch that stems from the genealogical trunk of the distinguished Davidson family tree he writes from the perspective of an African American male born in the post World War II era caught in a firestorm of extraordinary social change civil disturbance and a burgeoning drug culture His life runs in tandem with the migration of African Americans from the rural South to urban centers in the North and historic events such as the assassinations of President John F Kennedy Malcolm X the Rev Martin Luther King Jr and Senator Robert F Kennedy He seamlessly blends his family genealogy and his own mistakes and triumphs with American history From being an unemployed autoworker living and working in a dark tunnel to positions of responsibility and authority as a member of the

U S Army in strategic places around the world in this book the author gets a chance rarely given to African American men to tell his story before his peers instead of before a magistrate *Experimenting on a Small Planet* William W. Hay, 2021-09-27 This book is a thorough introduction to climate science and global change The author is a geologist who has spent much of his life investigating the climate of Earth from a time when it was warm and dinosaurs roamed the land to today's changing climate Bill Hay takes you on a journey to understand how the climate system works He explores how humans are unintentionally conducting a grand uncontrolled experiment which is leading to unanticipated changes We follow the twisting path of seemingly unrelated discoveries in physics chemistry biology geology and even mathematics to learn how they led to our present knowledge of how our planet works He explains why the weather is becoming increasingly chaotic as our planet warms at a rate far faster than at any time in its geologic past He speculates on possible future outcomes and suggests that nature itself may make some unexpected course corrections Although the book is written for the layman with little knowledge of science or mathematics it includes information from many diverse fields to provide even those actively working in the field of climatology with a broader view of this developing drama *Experimenting on a Small Planet* is a must read for anyone having more than a casual interest in global warming and climate change one of the most important and challenging issues of our time This new edition includes actual data from climate science into 2021 Numerous Powerpoint slides can be downloaded to allow lecturers and teachers to more effectively use the book as a basis for climate change education
