The Spatial Dynamics of Juvenile Series Literature Michael G. Cornelius,2020-11-11 Where we come from where we are where we have been and where we are going all have a huge impact on who we are Theories of space and place also hold that the converse is equally true that we have an impact on those spaces and places we inhabit or dwell within We make space our agencies our cultures our beliefs and values and understandings shape the macro and micro environments around us Just as much however those places we inhabit shape us causing us to adapt ourselves to them Children exist in spaces that are crafted for them by adults by parents by school administrators and teachers and as such their impact on space can be somewhat limited Space is made for them but certainly not to their own specifications or liking In children s literature spaces are often seen as noteworthy markers of a child s progression toward adulthood whether the space is Laura Ingalls little house or Harry Potter s Hogwarts For these characters movement through space is about growth and change about accepting the inevitability of growing up and the

responsibility of the adulthood whether that be marriage and motherhood or vanquishing the most evil wizard of all time However what about juvenile series books whose central protagonists generally never grow or change The central character of these series usually a flat unchanging trope more than a fully realized fleshed out dynamic figure is a static creation Though characters like Nancy Drew and the Hardy Boys frequently move through different geographies they never change as characters In fact one could argue that the only dynamic that ever experiences any alteration in a series like Nancy Drew is setting Surely there is something significant about the relationship of series books to those spaces their protagonists inhabit This collection explores that relationship the dynamics between the controlled spaces of childhood and the variable spaces of juvenile series literature It shows that the unchanging series book characters demonstrate that their impact on space is far greater than its impact ever is on them reflecting an exercise in spatial authority that most children and even children's book heroes never quite experience

Existential Threats Lisa Vox, 2017-05-12 Americans have long been enthralled by visions of the apocalypse Will the world end through nuclear war environmental degradation and declining biodiversity Or perhaps through the second coming of Christ rapture of the faithful and arrival of the Antichrist a set of beliefs known as dispensationalist premillennialism These seemingly competing apocalyptic fantasies are not as dissimilar as we might think In fact Lisa Vox argues although these secular and religious visions of the end of the world developed independently they have converged to create the landscape of our current apocalyptic imagination In Existential Threats Vox assembles a wide range of media science fiction movies biblical tractates rapture fiction to develop a critical history of the apocalyptic imagination from the late 1800s to the present Apocalypticism was once solely a religious ideology Vox contends which has secularized in response to increasing technological and political threats to American safety Vox reads texts ranging from Christianity Today articles on ecology and the atomic bomb to Dr Strangelove and from Mary Shelley's *The Last Man* to the Left Behind series by Tim LaHaye and Jerry B Jenkins demonstrating along the way that conservative evangelicals have not been as resistant to science as popularly believed and that scientists and science writers have unwittingly reproduced evangelical eschatological themes and scenarios in their own works Existential Threats argues that American apocalypticism reflects and propagates our ongoing debates over the authority of science the place of religion uses of technology and America's evolving role in global politics
