The Plague Dogs By Richard Adams:

The Plague Dogs Richard Adams, 2015-09-03 Two dogs Snitter and Rowf escape from a research laboratory in the Lake District where it is wrongly supposed they have been purposely infected with a deadly virus and now pose a dangerous threat to the human population As the authorities give chase the two friends make their way through the hills and across the moors along the way learning to survive on their wits and finding friendship and help from a fox they encounter They dream of finding their original owners and a safe haven but the hunt is on A lyrical and engrossing tale *The Plague Dogs* is a remarkable journey into the hearts and minds of two canine heroes *The Plague Dogs* Richard Adams, Robert Adams, 1983-12-12 *The Plague Dogs*, 2005 **The Plague Dogs** Richard Adams, 2002 Two dogs a fox terrier and a black Labrador escape from a research laboratory in the Lake District They team up with a fox and live wild When it is discovered that the dogs may be carriers of bubonic plague they are hunted down remorselessly *The Plague Dogs* Richard Adams, 1978 **Animal Narratology** Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling **Novels by Richard Adams** Source Wikipedia, 2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Commentary novels not included Pages 29 Chapters Watership Down Bunnies in an interview Adams said he began telling the story of the rabbits improvised off the top of my head as we were **Heterotopia, Radical Imagination, and Shattering Orders** Paula Arcari, 2024-12-13 This volume takes ending the oppression of other animals seriously and confronts the question What would happen to all the animals by showcasing real promissory and imagined counter sites or heterotopia where animals happen in different ways free of anthropocentric orders of value and purpose Rejecting persistent understandings of the oppression of nonhuman animals across the entire breadth of the Animal Industrial Complex A IC as either non existent unproblematic and or fundamentally unalterable open to merely being reduced in scale or made less harmful the collection

offers readers a variety of pathways towards radically disordered ways of thinking about and relating to other animals Over 14 chapters authors describe more liberatory relational reconfigurations playing out in the present and undertake conceptual imaginative and embodied explorations of liberatory futures The chapters are united by a common commitment to heterotopic disturbance to contesting and subverting the anthropo capitalo centric space in which we live Each chapter approaches this subversion in its own way using prefiguration restorying speculation radical imagination and combinations thereof to disturb or shatter orders explore the kinds of liberation and resistance their disturbance demonstrates demands or embodies and ultimately illustrate exactly what would or could happen to all the animals *Heterotopia Radical Imagination and Shattering Orders* will appeal to scholars students and individuals interested not only in challenging normalised binaries hierarchies and orders of value both human and nonhuman but in creating and realising liberatory alternatives Scholar activists activists professionals working in animal advocacy and anyone undertaking activities aimed at radically changing how other animals are understood and used will also find inspiration new insights and information that enhance their current methods and approaches Some readers may also find simply confirmation and comfort in the knowledge that so many others are working in solidarity with the disordered belief that shattering the A IC is possible *A Study Guide for Richard Adams's Watership Down* Gale, Cengage Learning, 2015-09-15 A Study Guide for Richard Adams s *Watership Down* excerpted from Gale s acclaimed *Novels for Students* This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust *Novels for Students* for all of your research needs [The Lives of Animals in Words and Images](#) Željko Uvanović, Suzana Marjanić, 2025-06-26 This Animal Studies collection unravels the complex ways we represent non humans across cultures and media but primarily focusing on their image in literature and film From Noah s Ark to the haunting imagery in Hitchcock s *The Birds* this book probes the ethical and symbolic roles creatures play in our lives It examines everything from the portrayal of insects in ancient texts to the depiction of cats as villains in Disney films Each chapter challenges our perceptions inviting readers to reflect on the cultural significance of animals in today s world Examine your perspectives on anthropocentrism and anthropomorphism in documentary filmmaking confront the legal and ethical dilemmas of animals in entertainment and ponder the harsh realities of animals exploited for human gain From ancient religious scriptures to contemporary film adaptations this meticulously curated collection of essays delves into the symbolic ethical and cultural significance of non human creatures in our still speciesist global society **The Plague Dogs. With Illustrations and Diagrams by A. Wainwright** Richard Adams, 1977 **On God and Dogs** Stephen H. Webb, 1998-01-15 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen

Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers

Dog Susan McHugh,2004-08-04 The story of the canine has been fundamentally entwined with that of humanity since the earliest times and this ancient and fascinating story is told in Susan McHugh's *Dog* *Vegetarian Times* ,1985-04 To do what no other magazine does Deliver simple delicious food plus expert health and lifestyle information that's exclusively vegetarian but wrapped in a fresh stylish mainstream package that's inviting to all Because while vegetarians are a great vital passionate niche their healthy way of eating and the earth friendly values it inspires appeals to an increasingly large group of Americans VT's goal To embrace both

A Long Cold War Jerry Carrier,2017-11-10 A Long Cold War is a two volume cultural history of Cold War America from 1945 to 1991 This is the story of America at her peak as a world power with the fear of nuclear war and the hyper competition with the USSR and China a good read for the historical nostalgic or even casual reader

The Worlds of Wes Anderson Adam Woodward,2024-10-22 In all his films Wes Anderson turns the mundane into magic by building distinctive and eccentric worlds But how well do you know the man behind the camera Discover the inspirations of one of our most revered auteurs with The Worlds of Wes Anderson Anderson's playful and vibrant aesthetic is universally admired but how has he managed to create such a recognisable identity From Hitchcock and Spielberg to Truffaut and Varda there are countless homages and references scattered throughout Anderson's filmography while his cultural anchor points go far beyond film and into the worlds of art and literature Evocations of place and time underpin his work from mid century Paris in The French Dispatch to grand pre war Europe in The Grand Budapest Hotel while cultural institutions such as Jacques Cousteau and The New Yorker magazine are other touchstones For Wes Anderson fans and cinephiles alike this is an essential insight into the creative process of one of the world's most unique filmmakers

Books I Have Loved Carl Wells,2023-02-08 Some oldthinkers still read books Carl Wells has been one of them Some of those books have made a huge impression on him Books I Have Loved gives us Wells response to 46 books by 41 authors encountered through a longish life

mostly spent misspent reading books His only regret is that he didn't spend more time reading Aspects of Metamorphosis D.B.D. Asker, 2021-12-28 *Aspects of Metamorphosis* Fictional Representations of the Becoming Human explores the various forms of metamorphosis found in literature mostly modern fiction but informed by earlier examples and the premises upon which the literature of transformation may be said to depend Instances of metamorphosis are very widespread in modern literature but as yet there has been no attempt to describe this literary anthropological phenomenon from a larger perspective This study approaches such a task The focus of *Aspects of Metamorphosis* is on human animal fictional metamorphoses which embody the concept of becoming human Gilles Deleuze describes metamorphosis especially in Kafka as the becoming animal Across the wide range of examples of literary metamorphosis in different languages and cultures I describe the becoming animal as an aspect of the becoming human a radical approach to mankind's perception of itself and restoration to itself through an animal other Franz Kafka is in many ways an odd man out in the crowd of modern metamorphosists Other authors across borders political geographical and linguistic present a humanist and moralist perspective that does not represent a fundamental break with the norms and cultural traditions rooted in the past Furry Planet Joe Strike, 2023-08-29 From a veteran fur comes an immersive entry into the world of furry fandom with an inside look at an amazing subculture the timeless human instinct to identify with animals and color images of furry costumes art and conventions Furs are the creative subculture of people who identify with animals You can find them at furry conventions furfests around the world tens of thousands of people donning their most elaborate fursuit In costume at conventions with friends or alone furries unleash the animal within letting their inner beasts roar and their inner cats purr aware of the power and joy to be found in bringing forward one's animal side and encouraging others to do the same In *Furry Planet* long time furry Joe Strike dives deep into this compelling subculture to share its appeal and rewards Strike and a wealth of interviewees trace the history of the subculture and its various iterations today in the process covering conventions media art storytelling community resources costume creation and advice for newcomers and addressing stigmas and misconceptions head on An unprecedented in depth guide *Furry Planet* is sure to inform and delight the ever growing furry fandom and anyone who has ever been curious about it Inside you'll find Insight into the natural human impulse to anthropomorphize animals A fascinating history of furry fandom A detailed look at furcons around the world Inspiration for fursuit costume creation Color images of costumes art and conventions Much more *Gothic Animals* Ruth Heholt, Melissa Edmundson, 2019-12-10 This book begins with the assumption that the presence of non human creatures causes an always already uncanny rift in human assumptions about reality Exploring the dark side of animal nature and the otherness of animals as viewed by humans and employing cutting edge theory on non human animals eco criticism literary and cultural theory this book takes the Gothic genre into new territory After the dissemination of Darwin's theories of evolution nineteenth century fiction quickly picked up on the idea of the animal within Here the fear explored was of an unruly defiant

degenerate and entirely amoral animality lying mostly dormant within all of us However non humans and humans have other sorts of encounters too and even before Darwin humans have often had an uneasy relationship with animals which as Donna Haraway puts it have a way of looking back at us In this book the focus is not on the animal within but rather on the animal with out other and entirely incomprehensible
