RC Schank

Ags United States History Textbook Chapter 26:

The Transformation of the Gulf David Held, Kristian Ulrichsen, 2013-03-01 This book examines the political economic and social transformation of the six member states of the Gulf Cooperation Council GCC and the ways in which these states are both shaping and being reshaped by the processes of globalisation Adopting a multidisciplinary approach the volume combines thematic chapters focusing on issues such as globalisation nationalism and identity political thinking and economic diversification and redistributive policymaking with empirical chapters studying specific aspects of reform and change the emergence of governing markets the rise of Sovereign Wealth Funds Islamic Finance the relationship between energy and sustainability trends in foreign aid donorship strategic and foreign policy formulation Contributions from experts in the field provide cutting edge snapshots of a region in flux and collectively offer a roadmap of its repositioning in the global order examining the interaction between global processes and internal dynamics of change and resistance that inject new dimensions into debates over the loci of local and global transformations and the manner in which each plays off the other Situating the Gulf States firmly within their global twenty first century context this book will hold particular appeal to theorists of globalisation as well as to scholars of comparative politics international political economy and area studies

America Unbound Antonio Barrenechea, 2016-11-15 This original contribution to hemispheric American literary studies comprises readings of three important novels from Mexico Canada and the United States Carlos Fuentes's *Terra Nostra* Quebecois writer Jacques Poulin's *Volkswagen Blues* and Native American writer Leslie Marmon Silko's *Almanac of the Dead* The encyclopedic novel has particular generic characteristics that serve these writers as a vehicle for the reincorporation of hemispheric histories Starting with an examination of *Moby Dick* as precursor Barrenechea shows how this narrative genre allows Fuentes Poulin and Silko to reflect the interconnected world of today as well as to dramatize indigenous and colonial values in their narratives His close attention to written documents visual representations and oral traditions in these encyclopedic novels sheds light on their comparative cultural relations and the New World from pole to pole This study amplifies the scope of America across cultures and languages time and tradition

Knowledge Exchanges Between Portugal and Europe Nuno Luís Vila-Santa Braga Campos, 2025-10-01 Following recent historiographical appeals on the need to study knowledge exchanges between European maritime rivals and their impact on overseas expansionist processes this book makes this study for the Portuguese overseas empire between the fifteenth and seventeenth centuries As the first European maritime power to systematically launch long distance voyages Portugal became a model worth emulation when Spain France England and the Dutch Republic started their own overseas enterprises In different chapters that each adopt a case study relation Portugal Spain Portugal England Portugal France and Portugal Dutch Republic this book documents how Portuguese maritime knowledge was outsourced by its maritime rivals The impact that Portuguese nautical knowledge had is evaluated resorting particularly to a wide range of diplomatic and espionage documents Finally the book discusses the

alleged Iberian secrecy policies regarding maritime knowledge explaining why there is no serious reason to consider their success

The Life and Thought of Isaiah Bowman Geoffrey J. Martin, 1980

Spain and the Independence of the United States: An Intrinsic Gift Thomas E. Chávez, 2002-04-11

The role of Spain in the birth of the United States is a little known and little understood aspect of U S independence Through actual fighting provision of supplies and money Spain helped the young British colonies succeed in becoming an independent nation Soldiers were recruited from all over the Spanish empire from Spain itself and from throughout Spanish America Many died fighting British soldiers and their allies in Central America the Caribbean along the Mississippi River from New Orleans to St Louis and as far north as Michigan along the Gulf Coast to Mobile and Pensacola as well as in Europe Based on primary research in the archives of Spain this book is about United States history at its very inception placing the war in its broadest international context In short the information in this book should provide a clearer understanding of the independence of the United States correct a longstanding omission in its history and enrich its patrimony It will appeal to anyone interested in the history of the Revolutionary War and in Spain s role in the development of the Americas

The American Cardiovascular Pandemic David Gordon, 2021-11-02

As Americans and citizens of other industrializing countries began to enjoy lives of increasing affluence and ease during the first half of the 20th century a rising tide of heart attacks and strokes displaced infectious diseases as the leading cause of death killing millions in the United States and throughout the world Although cardiovascular disease remains serious and widespread the significant decline of per capita deaths is one of the greatest accomplishments of modern public health and medicine Death rates from heart attack and stroke have fallen dramatically by 80% in the past 50 years the progress has been hard won by a combination of basic and applied laboratory research broad and far reaching epidemiological studies by physicians scientists and public health experts Cardiovascular disease is no longer viewed as an inevitable feature of the natural course of aging and complacency has given way to hope This book focuses on developments that influenced the rise and decline of cardiovascular mortality since 1900 but also includes insider insights from the author a 42 year NIH employee
