Developing Bus Rapid Transit Fiona Ferbrache,2019 Bus Rapid Transit BRT is a popular mode of sustainable public urban transit given dedicated focus in this timely collection The effects of BRT are examined in depth through a range of case studies from cities across six continents including analysis of BRT planning implementation operation performance and impacts The contributions from academics and non academic experts on BRT are framed more broadly within the concept of value and how urban transport investment has and can be valued by and for society *Spirit and Place* Christopher Day,2012-06-14 Built environment surrounds us for 90% of our lives but only now are we realising its influence on the environment our health and how we think feel and behave both individually and socially Spirit how to moderate climate to make places of delight and realign social pressures so places both support society and maximise economic viability Thought provoking and easy to understand Christopher Day uses everyday examples to relate his theories to practice and our experience *City of Newcastle Upon Tyne, City Centre Local Plan* ,1977 *Shaping Science* Janet Vertesi,2020-11-06 A fascinating inside look at NASA missions that provides important insight on the organizational aspects of scientific collaboration American Journal of Sociology In *Shaping Science* Janet Vertesi draws on a decade of immersive ethnography with NASA s robotic spacecraft teams to create a comparative account of two great space missions of the early 2000s Although these missions featured robotic explorers on the frontiers of the solar system bravely investigating new worlds their commands were issued from millions of miles away by a very human team By examining the two teams formal structures decision making techniques and informal work practices in the day to day process of mission planning Vertesi shows just how

deeply entangled a team's local organizational context is with the knowledge they produce about other worlds Using extensive embedded experiences on two NASA spacecraft teams this is the first book to apply organizational studies of work to the laboratory environment in order to analyze the production of scientific knowledge itself Engaging and deeply researched *Shaping Science* demonstrates the significant influence that the social organization of a scientific team can have on the practices of that team and the results they yield No matter how the lakes on Titan shimmer or what the mineralogy of a particular Martian rock turns out to be it was the people behind the spacecraft keyboards and endless tele conferences that drove what these interplanetary robots discovered I'm glad to have come to know them even better through this book *Nature* A fun illuminating read scholars of science technology work and organizations will find much to appreciate *American Journal of Sociology* Will be of great interest to all historians of science **Technology and Culture** **Plan Be** Terry

and Kashmir and he or she will tell you it is the home of spirituality Its a beautiful place blessed by the gods with beautiful rivers calm lakes picturesque waterfalls and cypress trees Its famous for its ancient Mughal heritage and Hindu shrines But toady these places are in news for something else Islamic extremists especially those operating from Pakistan continue to terrorize residents visitors and spreading militancy in region Azad Singh Rathore a successful entrepreneur from India traces the history of the region in this textbook which highlights how Pakistanis have betrayed Indians time and again He explores how Pakistans aggression triggered an all out war The Kargil War was defined by high altitude warfare in a climate as low as minus forty degrees Posts were fought over in hand to hand combat and India defeated Pakistan with great courage and bravery Join the author as he highlights Pakistans misdeeds and celebrates the bravery and patriotism of Indian soldiers that fought for their beloved nation in Kargil Annual Report of the Secretary of the Navy United States. Navy Department, 1848 *Seattle Meth and Car Theft* Tracy Marks, 2011-02-16 This is a story of how I got started on meth and how quickly things spun out of control until I was living on the streets which eventually progressed into crime while living out of stolen cars The cycle of drugs crime and prison goes on for years finally I hit treatment After treatment I find success and a new way to live until I relapse but I look at addiction through a new set of eyes I humanized the addict but would never ask for the reader s sympathy because this is a story solely written to exploit the underground drug world and property crimes of addicts This book is meant to give society a raw and uncut look into a car thief s world Exposing reasons of why cars are stolen how they are stolen and what happens to cars after they are stolen An inside look into street crime This story is engaging from the very first page and leaves the reader always wanting more Targeting anyone who has had someone close to them with a meth addiction and more importantly for those who live in cities and own a vehicle
