Alternative Visions of Post-War Reconstruction John Pendlebury,Erdem Erten,Larkham J Peter,2014-08-19 The history of post Second World War reconstruction has recently become an important field of research around the world *Alternative Visions of Post War Reconstruction* is a provocative work that questions the orthodoxies of twentieth century design history This book provides a key critical statement on mid twentieth century urban design and city planning focused principally upon the period between the start of the Second World War to the mid sixties The various figures and currents covered here represent a largely overlooked field within the history of 20th century urbanism In this period while certain modernist

practices assumed an institutional role for post war reconstruction and flourished into the mainstream such practices also faced opposition and criticism leading to the production of alternative visions and strategies Spanning from a historically informed modernism to the increasing presence of urban conservation the contributors examine these alternative approaches to the city and its architecture **Catalogue annuel de la Librairie Française** Librairie Française, L'architecture moderne en France: Du chaos à la croissance, 1940-1966 Claude Loupiac,1997 *Revue d'histoire moderne et contemporaine* ,1899 **Catalogue of the Library of the Teikoku Daigaku (Imperial University of Japan)** ,1896
