Organs of the Digestive System

Function of the Digestive System
The digestive system is responsible for taking the nutrients and sugar out of the food when you eat it and gives the nutrient and sugar to the rest of your body.

How the Digestive System works

It starts in your mouth the saliva moist the food and your teeth crunch the food. The food goes through the esophagus into your stomach. Your stomach turns the food into this thick liquid. The thick liquid that was once food goes through the small intestine. The liquid is going through the small intestine and it breaks down to sugar and nutrients. The nutrients go through the intestine

Teaching Literacy in Kindergarten Lea M. McGee, Lesley Mandel Morrow, 2005-05-05 Kindergarten is a time for playful and enriching learning activities that support children's literacy emergence while enhancing their social and cognitive development. The routines of a busy engaged productive kindergarten classroom are vividly brought to life in this information-packed book. Demonstrated are whole class and small group strategies for helping children acquire concepts about print and the alphabet, build phonological and phonemic awareness, learn to read sight words, develop their listening comprehension and writing abilities, and much more. *Teaching Health Science* Stephen J. Bender, 1997 Since the last edition of *Teaching Elementary Health Science* much has changed in health education. This edition contains the most recent information regarding education and health and the National Health Education Standards. Part 1 of this text covers health science foundations including the relationship between education and health, the meaning of comprehensive school health curricular approaches, learning strategies, and instructional accountability. Part 2 covers content strategies and skills. This text is a beneficial tool for elementary and middle school teachers and students of elementary middle school health education.

Creating Teacher Immediacy in Online Learning Environments D'Agustino, Steven, 2016-03-31 Educators are finding that communication and interaction are at the core of a successful web-based classroom. This interactivity fosters community which contributes to effective and meaningful learning. Positive online communities and the communication therein encourage students to interact with others' views which not only grows one's empathy but is an integral part of constructivist learning theories. Because of this, the most important role of an educator in an online class is one that ensures student interactivity and engagement. *Creating Teacher Immediacy in Online Learning Environments* addresses the most effective models and strategies for nurturing teacher immediacy in web-based and virtual learning environments. A number of innovative methods for building an authentic personalized online learning experience are outlined and discussed at length within this publication, providing solutions for pre-service as well as in-service educators. This book is a valuable compilation of research for course designers, faculty, students of education administration, software designers, and higher education researchers. Resources for Teaching Elementary School Science National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution, 1996-04-28 What activities might a teacher use to help children explore the life cycle of butterflies? What does a science teacher need to conduct a leaf safari for students? Where can children safely enjoy hands-on experience with life in an estuary? Selecting resources to teach elementary school science can be confusing and difficult, but few decisions have greater impact on the effectiveness of science teaching. Educators will find a wealth of information and expert guidance to meet this need in *Resources for Teaching Elementary School Science*. A completely revised edition of the best-selling resource guide *Science for Children*, *Resources for Teachers*, this new book is an annotated guide to hands-on, inquiry-centered curriculum materials and sources of help in teaching science from kindergarten through
