The Last Legends of Earth A.A. Attanasio, 2014-06-12 Seven billion years from now long after the Sun has died and human life itself has become extinct alien beings reincarnate humanity from our fossilized DNA drifting as debris in the void of deep space We are reborn to serve as bait in a battle to the death between the Rimstalker humankind's reanimator and the zotl horrific creatures who feed vampire like on the suffering of intelligent lifeforms The reborn children of Earth are told You owe no debt to the being that roused you to this second life Neither must you expect it to guide you or benefit you in any way Yet humans choose sides as humans will participating in the titanic struggle between Rimstalker and zotl in ways strange and momentous Author's Note The volumes of this series can each be read independently of the others The feature that unifies them is their individual observations of science fiction's sub genre space opera which the editors David G Hartwell and Kathryn Cramer define as colorful dramatic large scale science fiction adventure competently and sometimes beautifully written usually focused on a sympathetic heroic central character and plot action and usually set in the relatively distant future and in space or on other worlds characteristically optimistic in tone It often deals with war piracy military virtues and very large scale action large stakes
