Thompson Bryan D. Palmer, 1994-10-17 Edward Thompson perhaps the greatest post war historian in the English speaking world died in 1993 In this readable and unabashedly appreciative survey of Thompson s histories and politics Byran D Palmer reviews include a passionate biographical account of the late nineteenth century Romantic William Morris the hugely acclaimed *The Making of the English Working Class* and a series of eighteenth century studies that reach from customary culture to the antinomian poetics of William Blake In reviewing the politics which gave shape to his historical work Palmer assesses the role of Thompson s family background in India his youth in the Communist Party his decisive break with Stalinism in 1956 and his subsequent work campaigning for the causes of the left and nuclear disarmament Thompson was never comfortable in an academic milieu and eventually left formal teaching in the 1970s to devote his time to research and writing His pen was always ready to bend against the powers of the state and against a left he too often saw as abandoning the cause of social transformation For readers who know Thompson s work Palmer s discussion of hitherto unstudied aspects of his life will be novel and illuminating those less familiar with his prodigious achievement will find these pages a useful introduction *The Making of the English Working Class, by E.P. Thompson ...* John Fletcher Clews Harrison, 196?

Histories of a Radical Book Antoinette Burton, Stephanie Fortado, 2020-11-01 For better or worse E P Thompson s monumental book *The Making of the English Working Class* has played an essential role in shaping the intellectual lives of generations of readers since its original publication in 1963 This collected volume explores the complex impact of Thompson s book both as an intellectual project and material object relating it to the social and cultural history of the book form itself an enduring artifact of English history Radical Book History Antoinette M. Burton, 2015 *An Everyday Life of the English Working Class* Carolyn Steedman, 2013-12-05 This book concerns two men a stockingmaker and a magistrate who

both lived in a small English village at the turn of the nineteenth century It focuses on Joseph Woolley the stockingmaker on his way of seeing and writing the world around him and on the activities of magistrate Sir Gervase Clifton administering justice from his country house Clifton Hall Using Woolley's voluminous diaries and Clifton's magistrate records Carolyn Steedman gives us a unique and fascinating account of working class living and loving and getting and spending Through Woolley and his thoughts on reading and drinking sex the law and social relations she challenges traditional accounts which she argues have overstated the importance of work to the working man's understanding of himself as a creature of time place and society She shows instead that for men like Woolley law and fiction were just as critical as work in framing everyday life

Against the Market David McNally, 1993-12-17 In this innovative book David McNally develops a powerful critique of market socialism by tracing it back to its roots in early political economy He ranges from Adam Smith's attempt to reconcile moral philosophy with market economics to Malthus's reformulation of Smith's political economy which made it possible to justify poverty as a moral necessity Smith's economic theory was also the source of an attempt to construct a critique of capitalism derived from his conception of free and equal exchange governed by natural price This Smithian forerunner of today's market socialism sought to reform the market without abolishing the social relations on which it was based McNally explores this tradition sympathetically but exposes its fatal flaws The book concludes with an incisive consideration of efforts by writers such as Alec Nove to construct a feasible model of market socialism McNally shows these efforts are still plagued by the failure of early Smithian socialism to come to grips with the social foundations of the market the commodification of labor power which is the key to market regulation of the economy The results he argues are neither socialist nor workable

A Hundred English Working-Class Lives, 1900-1945 Rebecca Ball, 2024-07-11 Stanley Rice born in London in 1905 began his autobiography by stating that his life was an ordinary average life with all its ups and downs Stanley may have described his life as ordinary and yet he lived through a period of rapid social change including two world wars Despite this Stanley assumed that his life story would be of little interest to most readers as he had not achieved great fame or any notable accolades This book argues that this is exactly why historians should focus on such life stories as there is much to be gained by focusing on memories of ordinary average lives as they can expand our knowledge of the past often revealing firsthand experiences that have been excluded from the historical record This book does not intend to be a general social history of the working class Rather it is a work of memory drawing upon a microhistory methodology to examine how a sample of one hundred working class autobiographers remembered and wrote about living through years that were punctuated by two worldwide conflicts and a global economic depression

The Houses of History Anna Green, Kathleen Troup, 1999-03 Provides a comprehensive introduction to the twelve schools of thought which have had the greatest influence on the study of history in the twentieth century Ranging from Empiricism to Postcolonialism Marxism to the Ethnohistorians each chapter begins with an introduction to the particular school the main protagonists the critics and is followed by a useful section of further readings From the classic such as G R Elton's *England Under the Tudors* and E P Thompson's *The Making of the English Working Class* to the recent such as Henrietta Whiteman's *White Buffalo Woman* and Judith Walkowitz's *City of Dreadful Delight* the diverse selections collected here bring together the leading historians and theorists of the century

Home in British Working-Class Fiction Nicola Wilson, 2016-03-09 *Home in British Working Class Fiction* offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home gender domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often

been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class background Her book explores the depiction of home as a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson s broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home s role in the making and expression of class feeling and identity

Culture and the State David Lloyd, Paul Thomas, 2014-02-04 From the end of the eighteenth century to the late nineteenth century a remarkable convergence takes place in Europe between theories of the modern state and theories of culture *Culture and the State* explores that theoretical convergence in relation to the social functions of state and cultural institutions showing how cultural education comes to play the role of forming citizens for the modern state It critiques the way in which materialistic thinking has largely taken the concept of culture for granted and failed to grasp its relation to the idea of the state
