Asian Migration and Education Cultures in the Anglosphere Megan Watkins, Christina Ho, Rose Butler, 2019-03-27 Asian migration and mobilities are transforming education cultures in the Anglosphere prompting mounting debates about tiger mothers and dragon children and competition and segregation in Anglosphere schools This

book challenges the cultural essentialism which prevails in much academic and popular discussion of Asian success and in relation to Asian education mobilities As anxiety and aspiration within these spaces are increasingly ethnicised the children of Asian migrants are both admired and resented for their educational success This book explores popular perceptions of Asian migrant families through in depth empirically informed accounts on the broader economic social historical and geo political contexts within which education cultures are produced This includes contributions from academics on global markets and national policies around migration and education classed trajectories and articulations local formations of ethnic capital and transnational assemblages that produce education and mobility as means for social advancement At a time when our schooling systems and communities are undergoing rapid transformations as a result of increasing global mobility this book is a unique and important contribution to an issue of pressing significance This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

High-Stakes Testing in Education Theo J.H.M

Eggen, Gordon Stobart, 2015-10-14 High stakes educational testing is a global phenomenon which is increasing in both scale and importance Assessments are high stakes when there are serious consequences for one or more stakeholders Historically tests have largely been used for selection or for providing a licence to practise making them high stakes for the test takers Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students results These tests then become high stakes for teachers and schools especially when they have to meet externally imposed targets More recent has been the emergence of international comparative testing which has become high stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries In this book we draw on research which examines each of these uses of high stakes testing The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise To underline the international appeal of high stakes testing the studies are drawn from Australia Africa the Caribbean Europe former Soviet republics and North America Collectively they illustrate the power of high stakes assessment in shaping for better or for worse policy making and schooling This book was originally published as a special issue of Assessment in Education Principles Policy Practice
