Gibson,Robert McLean,1956 *Adult-study Guide* ,1937 *Co-operative Compliance and the OECD's International
Compliance Assurance Programme* Ronald Hein,Ronald Russo,2020-06-10 Prominent among initiatives addressing the urgent
need for a common understanding between multinational enterprises MNEs and national tax authorities about risks and risk
assessment is the International Compliance Assurance Programme ICAP which provides a channel for MNEs to engage in
simultaneous discussions with multiple national tax administrations thus enhancing the potential for advance tax assurance
To a certain extent the ICAP represents the internationalization of Co operative Compliance frameworks which were until
then restricted within the borders of single jurisdictions This book is the first to investigate Co operative Compliance
alongside with the ICAP describing developments in twelve countries Australia Austria Canada Germany Italy Japan the
Netherlands Norway Poland Spain the United Kingdom and the United States Following a general introduction two opening
perspectives on the ICAP are presented one from the OECD and one from a participating tax administration the Netherlands
leading to the twelve country reports and a special chapter on transfer pricing which is the main issue in international tax
disputes Specific elements reviewed include the following criteria to enter the programme the range of taxes covered by the
programme real time consultation procedures appeal procedures within the programme the possibility to agree to disagree
and to continue Co operative Compliance even in cases of litigation risk management strategies within tax authorities
corporate administrative compliance burden and main sources of tax uncertainty Country reports are contributed by tax
professionals and tax academics experienced in dealing with Co operative Compliance and the ICAP Each report addresses

the same questions so that all the reports cover the same features of domestic relationship approaches and the ICAP A final chapter reviews the collected contributions and offers some concluding remarks Although the ICAP process probably will undergo further adjustments it is certain that the road to more international cooperation between tax authorities and MNEs is now open This timely book as a comparative review of the implementation of the ICAP among leading jurisdictions active in global trade provides matchless insights into trends similarities differences and their implications It will be welcomed by all stakeholders in the international tax community including lawyers taxation authorities and academics
