Being afraid of losses can make beginning traders increase their level of risk in order to get back to breakeven quicker. It can also cause beginning traders to stop trading a perfectly good trading system. This of course leads to losses and frustration as these traders often see that their trading system would've gone on to be very profitable for them. So the moral of the story here is quite clear: do not trade with money that you cannot afford to lose. If you do not have the money required by your chosen Forex trading strategy, then use a Forex demo account to sharpen your skills until you save enough to have adequate working capital.

Prepare Yourself for Trading Success Beginning traders should keep the famous Boy Scout saying in mind: "Be Prepared." The most successful traders in the world became that way by being prepared, so there's no reason you shouldn't follow their example.
