NEW DARK AGE COMING As a candidate President Biden boldly promised that America would transition away from the oil and gas industry replacing it with renewable energy over time He further doubled down on that promise by issuing executive orders on his first day in office But has anyone really asked the question is that possible Fossil fuels have lifted humanity from the depths of poverty the drudgery of manual labor the edge of starvation and being captive to the whims of nature The President s proposals put all of that progress at risk by the idea that renewables can replace fossil fuels and the thousands of products derived from them Too much of the debate and discussion about energy is rampant with overly simplistic ideas and misinformation Take a journey through history and discover how fossil fuels touch every aspect of life making humanity wealthier healthier and safer Will the proposed world of renewable energy be bright or will it usher in a coming dark age
