185 Stupid Things Republicans Have Said:

185 Stupid Things Republicans Have Said Ted Rueter, 2008-02 Ted Rueter panders to Republican party lines by collecting 370 oratorical guffaws credited to popular politicians Categorized in alphabetical order and presented by subject topic the quips include Osama bin Laden Osama bin Laden is either alive and well or alive and not well or not alive Donald Rumsfeld Misunderestimation They underestimated me George W Bush *1,001 Ways the Republican Party is Screwing the Middle Class* Protecting Democracy from Republicans (PDR), 2012-08-01 Whether you're a hardcore left winger or are still feeling the sting from the Bush Administration 1 001 Ways the Republican Party is Screwing the Middle Class is a no holds barred book that lays down the truths as to why the majority is being shafted by the minority in this country Every day it becomes harder for someone in the middle class to live comfortably With raised taxes a hurt economy and jobs getting harder and harder to find our government should be taking it easy on us But with the pathetic tax cuts for the rich it's obvious that the Republicans only care for themselves They're consistently ignoring the hard working people of this country that keep it running and only care to help the power elite 1 001 Ways the Republican Party is Screwing the Middle Class is required reading for everyone who struggles to break even while these millionaires count their cash **The Uncivil War** David Lebedoff, 2004-07-22 The New Elite are the self proclaimed smartest people in the land a test score meritocracy that believes the consent of the governed has been made obsolete by the SAT Lebedoff says the real fight is between those who believe in majority rule and those who believe in rule by experts **American Foreign Policy Toward Latin America in the 80s and 90s** Howard J. Wiarda, 1992 This thoughtful controversial book by one of the country's leading Latin America scholars examines the fundamental tenets and ideologies behind America's policy towards Latin America over the course of the last three administrations Howard Wiarda who has served as a consultant for the State Department the Department of the Army the National Security Council the Kissinger Commission and the White House is ideally situated to provide an insider account of policy decisions and process during the Reagan Bush era The combination of Wiarda's academic background and his hands on knowledge of Washington practices and processes results in a volume that is extremely readable and will serve as a vital link between the scholarly and policymaking communities Wiarda supplements his incisive analysis on the role of the military in Latin America shifting U S strategic policy democracy and human rights and the problems presented by dictators in decline with illuminating case studies of Mexico Cuba Nicaragua South America and the Caribbean The result is a book that will be of interest to both scholars and students of American foreign policy and Latin American studies as well as policymakers and analysts **National Party Organizations and Party Brands in American Politics** Boris Heersink, 2023-06-23 In this book Boris Heersink analyzes the DNC and RNC in their role as party branders Specifically he argues the main role of the committees is to try and promote an image of the party to voters in a way they hope will help them win elections However in doing so they often have to make controversial decisions such as picking sides in big intra

party fights about what policies to support and what voting groups to target or ignore Through extensive historical analysis this book shows that the DNC and RNC were part of every major American policy debate throughout the 20th century
