Boykoff,2023-01-06 When Adolf Hitler hosted the 1936 Summer Olympics in Berlin he used the Games to rally political support in Germany and abroad for his white supremacist worldview In doing so Hitler not only ruptured the myth that politics and sports do not mix but he also initiated the first major instance of sportswashing hosting a sports mega event to launder one s stained reputation on the world stage The 1936 Berlin Olympics Race Power and Sportswashing situates these controversial Games in the longer political history of the Olympics and examines the behind the scenes machinations that led to the International Olympic Committee handing these Games to Germany in the first place In the United States the Berlin Olympics catalyzed a raucous if ultimately unsuccessful boycott campaign that raised serious concerns about racialized repression in the host country The Berlin Games furnished a high profile testing ground for racial theories rooted in white supremacy the marrow in the Nazis ideological bones where Black athletes like Jesse Owens thrived The Games also brought innovations like the Olympic Torch Relay that were subsequently woven into Olympic tradition Sportswashing is a significant concern in modern day sports studies this book demonstrates how the Olympic Games have long been both a potential pedestal for autocrats to boost their unsavory regimes and a flashpoint for human rights criticism Although history does not gift the present moment with crisp facsimiles from the past thinking through history illuminates patterns and possibilities that can help make sense of the whirling swirl of today Making the American Team Mark Dyreson,2024-04-22 Sport

**No Boston Olympics** Chris Dempsey, Andrew Zimbalist, 2017-05-02

In 2013 and 2014 some of Massachusetts wealthiest and most powerful individuals hatched an audacious plan to bring the 2024 Summer Olympics to Boston Like their counterparts in cities around the world Boston s Olympic boosters promised political leaders taxpayers and the media that the Games would deliver incalculable benefits and require little financial support from the public Yet these advocates refused to share the details of their bid and only grudgingly admitted when pressed that their plan called for billions of dollars in construction of unneeded venues To win the bid the public would have to guarantee taxpayer funds to cover cost overruns which have plagued all modern Olympic Games

The United States Olympic Committee USOC chose Boston 2024 s bid over that of other American cities in January 2015 and for a time it seemed inevitable that the International Olympic Committee IOC would award the Games to Boston 2024

**No Boston Olympics** is the story of how an ad hoc underfunded group of diverse and engaged citizens joined together to challenge and ultimately derail Boston s boosters the USOC and the IOC

Chris Dempsey was cochair of No Boston Olympics the group that first voiced skepticism demanded accountability and catalyzed dissent

Andrew Zimbalist is a world expert on the economics of sports and the leading researcher on the hidden costs of hosting mega events such as the Olympics and the World Cup Together they tell Boston s

story while providing a blueprint for citizens who seek to challenge costly wasteful disruptive and risky Olympic bids in their own cities
