northern Nepali kingdom of Mustang and a para commando force in India designed to operate behind Chinese lines Conboy and Morrison provide previously unreported details about secret missions undertaken in extraordinarily harsh conditions Their book greatly expands on previous memoirs by CIA officials by putting virtually every major agency participant on record with details of clandestine operations It also calls as witnesses the people who managed and fought in the program including Tibetan and Nepalese agents Indian intelligence officers and even mission aircrews Conboy and Morrison take pains to tell the story from all perspectives particularly that of the former Tibetan guerrillas many of whom have gone on record here for the first time The authors also tell how Tibet led America and India to become secret partners over the course of several presidential administrations and cite dozens of Indian and Tibetan intelligence documents directly related to these covert operations Ultimately they are persuasive that the Himalayan operations were far more successful as a proving ground for CIA agents who were later reassigned to southeast Asia than as a staging ground for armed rebellion As the movement for Tibetan liberation continues to attract international support Tibet s status remains a contentious issue in both Washington and Beijing This book takes readers inside a covert war fought with Tibetan blood and U S sponsorship and allows us to better understand the true nature of that controversy

Carved from Granite Lance Betros,2012-04-23 The United States Military Academy at West Point is one of America s oldest and most revered institutions Founded in 1802 its first and only mission is to prepare young men and since 1976 young women to be leaders of character for service as commissioned officers in the United States Army West Point s success in accomplishing that mission has secured its reputation as the foremost leadership development institution in the world An Academy promotional poster says it this way At West Point much of the history we teach was made by people we taught Carved from Granite is the story of how West Point goes about producing military leaders of character An opening chapter on the Academy s nineteenth century history provides context for the topic of each subsequent chapter As scholar and Academy graduate Lance Betros shows West Point s early history is interesting and colorful but its history since then is far more relevant to the issues and problems that face the Academy today Drawing from oral histories archival sources and his own experiences as a cadet and later a faculty member Betros describes and assesses how well West Point has accomplished its mission And while West Point is an impressive institution in many ways Betros does not hesitate to expose problems and challenge long held assumptions In a concluding chapter that is both subjective and interpretive the author offers his prescriptions for improving the institution focusing particularly on the areas of governance

admissions and intercollegiate athletics Photographs tables charts and other graphics aid the clarity of the discussion and lend visual and historical interest Carved from Granite West Point since 1902 is the most authoritative history of the modern United States Military Academy written to date There will be lively debate over some of the observations made in this book but if they are followed the author asserts that the Academy will emerge stronger and better able to accomplish its vital mission in the new century and beyond *Bibliography of Scientific and Industrial Reports*,1946 **Infantry Journal**,1947 **Report of the Commissioner of Education** United States.
