*Britain and the Netherlands* A. C. Duke, 2012-12-06 War has ever exercised a great appeal on men's minds Oscar Wilde's witticism notwithstanding this fascination cannot be attributed simply to the wicked character of war The demonic forces released by war have caught the artistic imagination while sages have reflected on the enigmatic readiness of each new generation to wage war despite the destruction disillusion and exhaustion that war is known to bring in its train If there never was a good war and a bad peace why did armed conflicts recur with such distressing regularity Was large scale violence an intrinsic condition of Man The answers given to such questions have differed widely it has even been suggested that the states of war and peace are not as far removed from one another as is usually supposed The causes of war and the interaction between war and society have long been the subject of philosophical enquiry and historical analysis According to Thucydides no one was ever compelled to go to war Cicero remarked how dumb were the laws in time of war while Clausewitz's profound observation concerning the affinity between war and politics has become almost a commonplace War being the severest test a society or state can experience historians have naturally been concerned to investigate their relationship *Techniek in Nederland in de twintigste eeuw*, 2003 *Dutch Enterprise in the 20th Century* Keetie E. *Five centuries of farming* Jan Bieleman, 2023-09-04 Where the lower reaches of the rivers Rijn Maas and Schelde have passed through the Northwest European plain to finally flow out into the North Sea a unique country of towns had come about during the Late Middle Ages Since then due to its natural and central location this country the Netherlands has turned into a true crossroads of European trade connections between east and west north and south A highly urbanised country emerged and as the urban economies prospered they have had a great impact on the surrounding countryside This in turn has affected the rural communities and has stimulated all kinds of agrarian activities Highly productive agribusiness complexes have been the result Today experts rank Dutch agriculture and

horticulture as one of the most productive in the world Milk production per cow and arable farming and horticulture productivity per man hour is amongst the highest known This book is meant to give an overview of the historical processes of five centuries of farming and it makes clear that the old farming society was only seemingly static This account of Dutch agricultural history demonstrates how Dutch farmers and horticulturist have always been keen on resetting their aims when the ever changing economic environment induced them to do so
